**Subject:** Administrative Time usage issue

Jeff,

Over the last week, it has become clear that the County does not have appropriate resources and authority internally in order to properly, publically, and completely investigate the full set of issues raised by the use of administrative time in the DA's office over the last two years. I need not go into detail about the full range of concerns. However, if this situation had occurred with another department head, I would have asked you to get involved and do your own investigation.

Since I cannot do that in this situation, I plan to ask the Attorney General to address the accusations which would be within her jurisdiction if they were true. I do not see that I have any other choice in this matter. Please do not take this personally, I am, as you are, merely trying to do my job.

If you have any thoughts about my plan, let me know.
