Statement from Xavier Campos

Regarding District Attorney Jeff Rosen's Press Conference

If these allegations are indeed true, it is both deeply disappointing and extremely hurtful, not just to me but also to the entire East San José community that had to endure this enormous distraction during the 2010 City Council race. Those responsible deserve to be brought to justice.

We have real concerns here on the east side of San José, like the explosion in violent crime and a lack of public resources to adequately protect and reinvest in our neighborhoods. Our community deserves continued leadership at City Hall to ensure their voice is well represented. That's what my campaign was about. That's been my focus as a Councilmember. And I have never wanted to be involved in any activities that distract our City's attention from these critical issues.

Sincerely,

Xavier Campos
Councilmember
City of San José, District 5
