## REQUEST FOR INFORMATION:

It has been four days since violence related to a political rally took place on our downtown streets. The city council has not been provided any written update from the city manager or police chief. Presently none of us have all the information required to completely assess exactly what transpired, what else may or may not have been done, or what should be done in the future should similar circumstances arise.

I feel this issue needs to be discussed and reviewed in short order, especially (fingers crossed) since the Sharks could win the Stanley Cup, and the city needs to ensure that it can prevent innocent people from wanton violence.
