Honorable Members of the Bay Area
Legislative Delegation

Re: BART and VTA Partnership Moving Forward

Dear Honorable Members of the Bay Area Legislative Delegation:

This is to keep you apprised in regard to the exciting progress of phase 2 of the proposed Silicon Valley BART extension project. VTA and BART have been working collaboratively for several years to move this vision forward and have come to the point where the staff of each agency will recommend to their respective Board of Directors that a single bore alternative be adopted.

VTA General Manager Nuria Fernandez deserves both credit and praise for getting us to this pivotal point while maintaining a commitment to both safety and speedy project delivery. Through her leadership and determination we trust that, if approved, the agencies will be able to build and operate an extension that will result in years of safe and efficient transit service.

We look forward to a celebration with you down the road where we can all appreciate her hard work and dedication to increasing public transit opportunities in our impacted communities.

Sincerely,

Grace Crunican
General Manager
