**Narrative****I. ATTACHMENTS:**

CHP collision report I completed.  
FDA [REDACTED] Medication Guide  
Rite Aid Medication Guide

**II. NARRATIVE:**

On 12/16/2019, at approximately 1142 hours, I was dispatched to an unknown injury traffic collision that was quickly updated to a possible fatal injury collision at Blossom Hill Road and Cherry Blossom Lane. I arrived in the area of Blossom Hill Road and Cherry Blossom Lane at approximately 1150 hours and located the scene on the north shoulder of the roadway in front of [REDACTED] Blossom Hill Road. All times, speeds and measurements found in this investigation are approximate. Measurements were made by measuring tape, "Total Station MPL350", roll-a-tape, and computer estimation. Upon arrival at the scene, I activated my VieVu recording device. Information in this report, including statements, is a summary of events. For exact details and verbatim statements, see my uploaded VieVu recording.

At the area of the collision, Blossom Hill Road is a straight, level, asphalt, undivided, arterial road that travels in an east-west direction. There were residential duplexes on the north side with a Los Gatos Town Park and elementary school on the south side of Blossom Hill Road in the area of the collision. The roadway was dry at the time of the collision. Blossom Hill Road from north to south, has a north shoulder for W/B parking without restrictions, a W/B bike lane marked with solid white lines, two W/B lanes of traffic separated by a broken white painted line, a center two-way turn lane marked by solid yellow line and a broken yellow line on both the W/B and E/B sides, an E/B lane, an E/B bike lane which in that area was broken up and just had a painted white broken line on the north side of it, and a south shoulder controlled by a red curb with posted "No Parking Anytime" signs.

Blossom Hill Road was controlled by lane dividers, a posted regulatory 35 MPH speed limit sign, and School Zone signs posting a 25 mph speed limit when children are present. At the time of the collision, all roadway markings, signs, and signals were visible and in good working condition.

Upon my arrival at approximately 1150 hours, I took approximately six photos of the scene, which I attached to the CHP 555 report. After taking the photos and a preliminary look at the scene, I contacted S-BRADANINI who was originally contacted by Ofc. Howard. S-BRADANINI was lying on the sidewalk two houses west of the collision in the fetal position crying hysterically. S-BRADANINI was identified as the driver of V-1 by W-2 and her own statement. S-BRADANINI was identified by her CA Driver license #C0579050.

V-STARKEY was lying deceased with his legs mostly sheared off between V-1 and V-2 at the location of the collision. V-STARKEY was identified by his CA Driver license # [REDACTED].

Upon my arrival, V-1 (a white, 2013, Land Rover, Discovery) was located on its wheels in the north shoulder along

### Narrative

the north curb line facing west at V-1's point of rest with major front end damage. V-1's steering wheel airbag had deployed. V-1 was eventually impounded for evidence by Sgt. Lunsford #S035 and towed from the scene by Bob's Towing.

Upon my arrival, V-2 (a white, 2004, Honda, Pilot, that was listed on page one of the CHP 555 report as Party 3, a parked vehicle) was located on its wheels with the left front tire partially in the north bike lane for the W/B direction and the rear tires in the north shoulder of Blossom Hill Road along the north curb line facing west at V-2's point of rest with major rear end damage. The rear hatch of V-2 was open. V-2 was eventually impounded for evidence by Sgt. Lunsford #S035 and towed from the scene by Bob's Towing.

### Injuries:

S-BRADANINI had no visible injuries or complaint of pain at the scene and was also examined at the scene by Santa Clara County Fire personnel (SCCFD).

V-STARKEY sustained fatal trauma. V-STARKEY's legs were mostly sheared off above his knees, with abrasions and bruising about his torso and head/face trauma that was covered with blood. Santa Clara County firefighter/paramedic Broom #P32486, contacted Valley Medical Center Dr. Singh via telephone who pronounced the death of V-STARKEY at approximately 1152 hours.

### PHYSICAL EVIDENCE:

Upon arrival at the scene, I took six photos to document the scene which I attached to the CHP collision report. Ofc. Stanley #S062 took approximately 84 pictures documenting the scene which he downloaded to a compact disc and booked in as evidence. Ofc. Stanley documented the measurements at the scene and completed the factual diagram (attached to CHP 555 report). Ofc. Stanley and Ofc. Alldredge completed speed calculations of V-1's approximate speed prior to the collision.

### Statement of Suspect Bradanini, driver of V-1:

I contacted S-BRADANINI after Ofc. Howard had spoken to her. When I contacted her, a SCCFD Fireman was talking with her. She was lying on the ground near the scene and was very emotional and crying. S-BRADANINI stated she did not know what happened and followed up with, "I was driving and he was on the side of the road." I asked S-BRADANINI to back up and start from where she came from and where she was going. S-BRADANINI had just left San Jose City Hall and was going to pick up some medication and her insurance card she had left at her doctor's office. S-BRADANINI left City Hall at approximately 1115 hours. S-BRADANINI was headed to the doctor's office to get her insurance card in order to pick up her prescription. S-BRADANINI stated her doctor was Susan Wilturner and the office was on National Avenue. (A google search later revealed Susan Wilturner MDMS, FAAAM Family Medicine Los Gatos, CA 14901 National Ave # 201 Los Gatos, CA 95032). S-BRADANINI then needed to pick up her prescription medication at Sorci pharmacy. (A google search later revealed, Sorci Healthcare Pharmacy, 15714 Los Gatos Blvd #2504, Los Gatos, CA 95032).

S-BRADANINI was unsure what had happened prior to the collision, stating that "I didn't know, I was driving, I moved, I think I was going around, I remember seeing him at the corner, I was seeing him and all of a sudden I was hitting him." S-BRADANINI stated "I cannot remember" and asked me "does that happen." When I asked, S-BRADANINI felt she first saw him (V-STARKEY) "on the side of the road 20-30 feet back." She felt she was "going past" (him), and then did not know how all of a sudden "I hit him."

When I went back over the events with S-BRADANINI, she indicated she was in the #2 lane, at an unknown speed, but "not fast, there are too many cars to go fast." I asked her where he was when she hit him. S-BRADANINI did not know, "that is the part I don't remember." "I remember seeing a white car, after I hit it I remember thinking, Oh shit, Oh my God, Oh my God." "So my mind knew that guy was in front of that car, after I hit him." I went back over the details and she explained, "He was behind his white car, I hit him and his white car." S-BRADANINI thought, "I think he might have been kneeling down or something."

S-BRADANINI did not ever say if she hit the brakes, and when I asked she replied, "I don't know, I don't know." S-BRADANINI stated, "I don't remember what I was doing, I don't know." She stated she was not on her phone, "I knew where I was going, you can tell that right?" She then stated, "Maybe I looked at the time." "I don't know

### Narrative

what I did, I know I killed him, it's all my fault." S-BRADANINI then asked, "Am I going to jail?" I explained to her that I needed to figure out what happened.

I asked S-BRADANINI how her car ended up on the side of the road and she responded, "I somehow veered in, I must have veered in." I explained to her the theory of "head and eye" and she stated, "The only thing I can think of is I was getting my sunglasses because it is so bright out." I asked her what she was thinking and she replied, "I need to go to the pharmacy, do I need to get my insurance card, and how do I get there." She stated, she did not need directions, "I know how to get there, you turn right at Whole Foods."

I asked her about what happened after the collision? S-BRADANINI replied, "I hit the car and was like oh my god, where is the guy, so I knew there was a guy there." "Then I freaked out and these ladies called 911." "I wanted to put something over him, I wanted to cover him up and I was thinking please don't die, please don't die." When I asked if she remembered anything moving around in the car or reaching for anything, she replied "I honestly don't know."

While I was asking for her identifying information, S-BRADANINI stated, "What if I took off my jacket, I had a jacket on at one point." I asked if there was anything else she wanted to tell me. "I was driving, I was thinking about Christmas, I don't know I can't figure it out, I can't figure it out." "I don't know if I had my jacket on or off, could I have taken off my jacket." "I am trying to remember all the things I could have done, I know I was not on my phone." "See if it is plugged in because I listened to...." I asked her if that was her phone next to her and she stated, "Yes" and picked it up.

I asked her if we had her permission to look at her phone and she stated "Yeah." I confirmed her response and she replied "Yes." I called Ofc. Alldredge (REACT Detective) over and she handed her phone to him. Ofc. Alldredge confirmed her consent to look at her phone which she confirmed and gave him the passcode to the phone. For additional information, see Ofc. Alldredge's supplemental report.

S-BRADANINI explained she was at city hall working on the women's march. She had all 40 city departments at the meeting to get the march approved because she was president of the women's march. After she paused to think S-BRADANINI stated, "I don't even want to live." We reassured S-BRADANINI and Ofc. Alldredge took over the interview with S-BRADANINI about her phone.

S-BRADANINI was transported to the Police Operations Building by Sgt. Field and Cpt. D'Antonio to get her away from the traumatic scene. See supplemental report by Sgt. Field for additional details. S-BRADANINI was later re-interviewed by Sgt. Elliott and Det. Hoyt at POB, supplemental report by Det. Hoyt.

#### Witnesses:

Ofc. Howard took W1, W2, and W3's statements were documented in Ofc. Howard's supplemental report.

At approximately 1230 hours, I knocked on the door of [REDACTED] Blossom Hill Road, contacted W-Dominick and W-Dias who were at the residence, and interviewed them about the incident.

#### Statement of Witness Four, Ms. [REDACTED] Dominick "[REDACTED]":

W-DOMINICK lives at [REDACTED] Blossom Hill Road and had hired V-STARKEY as her handyman to install a light over her garage. V-STARKEY had arrived at about 1100 hours and was approximately two hours late because of all the traffic on highway 17. V-STARKEY came to her front door and she let him in the house. V-STARKEY was her friend and she had known him for some time. V-STARKEY talked with her a bit in the house and he exited her house through the interior garage door to the garage. V-STARKEY had been there before regarding the light and had all his materials in the garage from his previous visit. W-DOMINICK last saw V-STARKEY when he exited out the interior garage door at approximately 1110 hours. W-DOMINICK then resumed her card game at the card table in the front of the house with W-DIAS. W-DOMINICK stated she did not see the collision, she felt she might have heard it only. W-DOMINICK heard a noise when playing cards and the dog started barking, but she did not investigate the noise.

#### Statement of Witness Five, R [REDACTED] Dias:

Report Officer SOBO/BAUGHN, KEVIN	Printed At 04/29/2020 13:05
Page 5 of 7	

# Incident Report

## Los Gatos/Monte Sereno Police Department

19-2865

Supplement No  
ORIG

### Narrative

W-DIAS was playing a game at the card table with W-DOMINICK when V-STARKEY came over to fix the light. W-DIAS last saw V-STARKEY exit out into the garage and then resumed her game with W-DOMINICK. While they were playing a game at the card table in the front of the house, she heard a noise from outside and the dog barked, but she did not investigate the noise any further.

### Intoxication Narrative:

W-1 described (in Ofc. Howard's supplemental report) S-BRADANINI's driving prior to the collision as "swerving" and unable to maintain her lane both to the left and to the right. The area of collision was on the north shoulder of the roadway, with an approximately five foot bike lane separating E/B lane two and the north shoulder of Blossom Hill Road. V-2 was unoccupied and legally parked along the north curb line of Blossom Hill Road. S-BRADANINI was unable to provide details or remember why she veered out of her lane of travel approximately six to eight feet and rear ended V-2 crushing V-STARKEY who was standing behind V-2.

S-BRADANINI did not display any objective symptoms of alcohol intoxication, but was unable to clearly describe her actions just prior to the collision, had trouble focusing and articulating her thoughts, or answering simple questions with slowed thinking, and apparent memory loss. She also admitted to prescription drug use prior to the collision (documented in Det. H. Hoyt's supplemental report).

S-BRADANINI voluntarily gave a blood sample, which was taken by a VMC blood technician at the Los Gatos Monte Sereno Police Department who booked it into the blood vault at Santa Clara County AIB. For addition information, see the supplemental report by Sgt. Field.

### Additional Narrative:

At the scene I was the first officer to enter V-1 and found the transmission was still in drive. I had Ofc. Stanley take photographs the interior of V-1 prior to looking for S-BRADANINI's vehicle insurance. S-BRADANINI's black purse was on the passenger seat leaning towards the driver side against the center console open. A red wallet was located above the dash (between the dash and windshield on the passenger side. The red wallet, which she later identified as hers, also contained S-BRADANINI's CA driver license. Another black bag a little larger than a purse that contained papers was facing up, open, and was located on the passenger floor board near the passenger seat. I was unable to locate any vehicle insurance paperwork in either of the glove boxes or the center console. I was able to locate a pink slip for V-1 which I took a photograph of.

I returned to Police Operations Building and talked with S-BRADANINI who gave me permission to look for her vehicle insurance in her possessions and to bring her purse back to her at POB. I returned to the car and searched the purse, wallet, and black bag, but was not able to locate any proof of vehicle insurance. I transported the purse, wallet, and black bag to POB and gave them to her one at a time. When I handed S-BRADANINI the red wallet and told her where I found it, she stopped crying, turned to look directly at me, and very clearly and directly stated "somebody else must have put it there." I found her behavior to be a noticeable change from how she had been acting. She went from unfocussed, emotional, crying, to clear, direct, focused in an instant and then back again. I left S-BRADANINI with her red wallet, black purse, and black bag in the interview room with Sgt. Field, Det. Hoyt, and Sgt. Elliott.

When S-BRADANINI could not locate any proof of vehicle insurance in her purse, she directed me to contact her husband who she was separated from. I contacted V-1's registered owner, B. Bradanini via telephone (phone number was provided by S-BRADANINI). R/O-Bradanini first said he signed over V-1 to his ex-wife Jennifer Higgins (S-BRADANINI) and she was supposed to have her own insurance on the vehicle. I explained to him that I have spoken with S-BRADANINI who did not have proof of insurance on her and she had asked me to speak with him. R/O-Bradanini stated he had not yet canceled the insurance on V-1 and provided me with the Mercury Insurance information listed on page one.

### III. FOLLOW UP:

MAV and/or VIEVU video is available of this incident upon request.

### Narrative

#### ADDITIONAL INFORMATION:

On 4/13/2020, Det. Hoyt provided me a copy of County of Santa Clara County Crime Laboratories, Outside Testing Result Summary which was conducted by National Medical Services. The testing results showed S-BRADANINI's blood sample contained [REDACTED]

On 4/14/2020, I made contact with Pharmacist Kimberly Dorobiala license #74939, who provided me a Medication Guide that was approved by the U.S. Food and Drug Administration for [REDACTED] and issued 9/16 and a Rite Aid [REDACTED] information sheet. Per Pharmacist Dorobiala the FDA Medical Guide for [REDACTED] is the information all Pharmacist have to legally provide with all [REDACTED] prescriptions. Both the FDA and Rite Aid [REDACTED] sheets Pharmacist Dorobiala provided me are attached to this report.

The FDA Medication Guide for [REDACTED] states the following (among other information):

"Do not drive, operate heavy machinery, or do other dangerous activities until you know how [REDACTED] affects you"

"[REDACTED] can cause you to be drowsy. Do not drive a car or operate heavy machinery until you know how [REDACTED] affects you."

"The most common side effects of [REDACTED] include: Sedation, weakness, dizziness, unsteadiness"

#### IV. RECOMMENDATIONS :

Due to S-BRADANINI being the driver of a vehicle that was involved in a collision resulting in the unlawful killing of a human being with the following facts:

Witness one's description of S-BRADANINI's driving just prior to the collision being consistent with an impaired driver.

The area of impact was 6-8' north of her vehicles lane of travel.

The National Medical Services laboratory testing results revealed her blood sample contained [REDACTED], a DEA schedule IV controlled substance.

The U.S. Food and Drug Administration's Medication Guide for [REDACTED] list several impairing side effects and a "Do not Drive" warning.

I recommend S-BRADANINI be charged with California Penal Code section 191.5 (a), Gross Vehicular Manslaughter.

**1\_ FACTS:**

2

**3 NOTIFICATION:**

4 On 12/16/2019, at approximately 1142 hours, I was dispatched to an unknown injury traffic  
5 collision that was quickly updated to a possible fatal injury collision at Blossom Hill Road and  
6 Cherry Blossom Lane. I arrived in the area of Blossom Hill Road and Cherry Blossom Lane at  
7 approximately 1150 hours and located the scene on the north shoulder of the roadway in front of  
8 ■ Blossom Hill Road. All times, speeds and measurements found in this investigation are  
9 approximate. Measurements were made by measuring tape, "Total Station MPL350", roll-a-tape,  
10 and computer estimation. Upon arrival at the scene, I activated my ViVue recording device.  
11 Information in this report, including statements, is a summary of events. For exact details and  
12 verbatim statements, see my uploaded VieVu recording.

13

**14 SCENE DESCRIPTION:**

15

**16 Roadway Description:**

17 At the area of the collision, Blossom Hill Road is a straight, level, asphalt, undivided, arterial road  
18 that travels in an east-west direction. There were residential duplexes on the north side with a  
19 park and elementary school on the south side of Blossom Hill Road in the area of the collision.  
20 The roadway was dry at the time of the collision. Blossom Hill Road from north to south, has a  
21 north shoulder for W/B parking without restrictions, a W/B bike lane marked with solid white lines,  
22 two W/B lanes of traffic separated by a broken white painted line, a center two-way turn lane  
23 marked by solid yellow line and a broken yellow line on both the W/B and E/B sides, an E/B lane,  
24 an E/B bike lane in that area was broken up and just had a painted white broken line on the north  
25 side of it, and a south shoulder controlled by a red curb with posted "No Parking Anytime" signs.

26

**27 Traffic Controls:**

28 Blossom Hill Road was controlled by lane dividers, a posted regulatory 35 MPH speed limit sign,  
29 and School Zone signs posting a 25 mph speed limit when children are present. At the time of  
30 the collision, all roadway markings, signs, and signals were visible and in good working condition.

31

**32 Weather Conditions:**

33 At the time of the collision the weather was clear.

34

**35 Lighting:**

36 At the time of the collision the scene was illuminated by daylight.

37

38 **NOTE:** For further information on weather, lighting, roadway surface and roadway  
39 conditions, see CHP555 page two.

04307OFFICER I.D.  
S080PAGE 7 of 12  
NUMBER  
19-2865**PARTIES:****Driver:**

P-1 was lying on the sidewalk two houses west of the collision in the fetal position crying hysterically. It is unknown if P-1 had been wearing her seat belt. P-1 was identified as the driver of V-1 by W-2 and her own statement. P-1 was identified by her CA Driver license #C0579050.

P-2 was lying deceased with his legs mostly sheared off between V-1 and V-2 at the location of the collision. P-2 was identified by his CA Driver license # [REDACTED].

**Vehicle(s):**

Upon my arrival, V-1 was located on its wheels in the north shoulder along the north curb line facing west at V-1's point of rest with major front end damage. V-1's steering wheel airbag had deployed. V-1 was impounded for evidence by Sgt. Lunsford #S035 and towed from the scene by Bob's Towing.

Upon my arrival, V-2 (listed on page one as Party 3, a parked vehicle) was located on its wheels with the left front tire partially in the north bike lane and the rear tires in the north shoulder along the north curb line facing west at V-2's point of rest with major rear end damage. The rear hatch of V-2 was open. V-2 was impounded for evidence by Sgt. Lunsford #S035 and towed from the scene by Bob's Towing.

**Injuries:**

P-1 had no visible injuries or complaint of pain at the scene and was examined at the scene by Santa Clara County Fire personnel.

P-2 sustained fatal trauma. P-2's legs were mostly sheared off above his knees, with abrasions and bruising about his torso and head/face trauma that was covered with blood. Santa Clara County firefighter/paramedic Broom #P32486, contacted Valley Medical Center Dr. Singh via telephone who pronounced the death of P-2 at approximately 1152 hours.

**PHYSICAL EVIDENCE:**

Upon arrival at the scene, I took six photos to document the scene which I attached to this report. Ofc. Stanley #S062 took approximately 82 pictures documenting the scene which he downloaded to a compact disc and booked in as evidence. Ofc. Stanley documented the measurements at the scene and completed the factual diagram of the scene in his supplemental report.

1 I contacted P-1 after Ofc. Howard had spoken to her. When I contacted her, a SCCFD firefighter  
2 was talking with her. She was lying on the ground near the scene and was very emotional and  
3 crying. P-1 stated she did not know what happened and followed up with, "I was driving and he  
4 was on the side of the road." I asked P-1 to back up and start from where she came from and  
5 where she was going. P-1 had just left San Jose City Hall and was going to pick up some  
6 medication and her insurance card she had left at her doctor's office. P-1 left City Hall at  
7 approximately 1115 hours. P-1 was headed to the doctor's office to get her insurance card in  
8 order to pick up her prescription. P-1 stated her doctor was Susan Wilturner and the office was  
9 on National Avenue. (A google search later revealed Susan Wilturner MDMS, FAAAM Family  
10 Medicine Los Gatos, CA 14901 National Ave # 201 Los Gatos, CA 95032). P-1 then needed to  
11 pick up her prescription medication at Sorci pharmacy. (A google search later revealed, Sorci  
12 Healthcare Pharmacy, 15714 Los Gatos Blvd #2504, Los Gatos, CA 95032).

13  
14 P-1 was unsure what had happened prior to the collision, stating that "I didn't know, I was  
15 driving, I moved, I think I was going around, I remember seeing him at the corner, I was seeing  
16 him and all of a sudden I was hitting him." P1 stated "I cannot remember" and asked me "does  
17 that happen." When I asked, P-1 felt she first saw him (P-2) "on the side of the road 20-30 feet  
18 back." She felt she was "going past" (him), and then did not know how all of a sudden "I hit him."

19  
20 When I went back over the events with P1, she indicated she was in the #2 lane, at an  
21 unknown speed, but "not fast, there are too many cars to go fast." I asked her where he was  
22 when she hit him. P1 did not know, "that is the part I don't remember." "I remember seeing a  
23 white car, after I hit it I remember thinking, Oh shit, Oh my God, Oh my God." "So my mind knew  
24 that guy was in front of that car, after I hit him." I went back over the details and she explained,  
25 "He was behind his white car, I hit him and his white car." P-1 thought, "I think he might have  
26 been kneeling down or something."

27  
28 P-1 did not ever say if she hit the brakes, and when I asked replied, "I don't know, I don't  
29 know." P1 stated, "I don't remember what I was doing, I don't know." She stated she was not on  
30 her phone, "I knew where I was going, you can tell that right?" She also stated, "maybe I looked  
31 at the time." "I don't know what I did, I know I killed him, it's all my fault." P-1 then asked, "Am I  
32 going to jail?" I explained to her that I needed to figure out what happened.

33  
34 I asked P-1 how her car ended up on the side of the road and she responded, "I somehow  
35 veered in, I must have veered in." I explained to her the theory of "head and eye" and she stated,  
36 "the only thing I can think of is I was getting my sunglasses because it is so bright out." I asked  
37 her what she was thinking and she replied, "I need to go to the pharmacy, do I need to get my  
38 insurance card, and how do I get there." She stated, she did not need directions, "I know how to  
39 get there, you turn right at Whole Foods."

1 I asked her about what happened after the collision? P-1 replied, "I hit the car and was like  
2 oh my god, where is the guy, so I knew there was a guy there." "Then I freaked out and these  
3 ladies called 911." "I wanted to put something over him, I wanted to cover him up and I was  
4 thinking please don't die, please don't die." When I asked if she remembered anything moving  
5 around in the car or reaching for anything, she replied "I honestly don't know."  
6

7 While I was asking for her identifying information, P-1 stated, "what if I took off my jacket, I  
8 had a jacket on at one point." I asked if there was anything else she wanted to tell me. "I was  
9 driving, I was thinking about Christmas, I don't know I can't figure it out, I can't figure it out." "I  
10 don't know if I had my jacket on or off, could I have taken off my jacket." "I am trying to remember  
11 all the things I could have done, I know I was not on my phone." "See if it is plugged in because I  
12 listened to...." I asked her if that was her phone next to her and she stated, "yes" and picked it  
13 up.  
14

15 I asked her if we had her permission to look at her phone and she stated "yeah." I  
16 confirmed her response and she replied "yes." I called Ofc. Alldredge (REACT Detective) over  
17 and she handed her phone to him. Ofc. Alldredge confirmed her consent to look at her phone  
18 which she confirmed and gave him the passcode to the phone. For additional information, see  
19 Ofc. Alldredge's supplemental report.  
20

21 P-1 explained she was at city hall working on the women's march. She had all 40 city  
22 departments at the meeting to get the march approved because she was president of the  
23 women's march. After she paused to think P1 stated, "I don't even want to live." We reassured  
24 P1 and Ofc. Alldredge took over the interview with P1 about her phone.  
25

26 P-1 was transported to the Police Operations Building by Sgt. Field and Cpt. D'Antonio to  
27 get her away from the traumatic scene. See supplemental report by Sgt. Field for additional  
28 details. P1 was later re-interviewed by Sgt. Elliott and Det. Hoyt at POB, supplemental report by  
29 Det. Hoyt.  
30

**Passenger(s):**

None

**Witness(es):**

35 Ofc. Howard took W1, W2, and W3's statements and documented them in his attached  
36 supplemental report.  
37

**Statement of Witness four, M. [REDACTED] Dominick "[REDACTED]":**

39 W4 lives at [REDACTED] Blossom Hill Road and had hired P-2 as her handyman to install a light over her  
40 garage. P-2 had arrived at about 1100 hours and was approximately two hours late because of  
41 all the traffic on highway 17. P-2 came to her front door and she let him in the house. P-2 was

her friend and she had known him for some time. P-2 talked with her a bit in the house and he exited her house through the interior garage door to the garage. P-2 had been there before regarding the light and had all his materials in the garage from his previous visit. W-4 last saw P-2 when he exited out the interior garage door at approximately 1110 hours. W-4 then resumed her card game at the card table in the front of the house with W5. W4 stated she did not see the collision, she felt she might have heard it only. W4 heard a noise when playing cards and the dog started barking, but she did not investigate the noise.

**Statement of Witness five, R Patricia:**

W5 was playing a game at the card table with W-4 when P-2 came over to fix the light. W-5 last saw P-2 exit out into the garage and then resumed her game with W-4. While they were playing a game at the card table in the front of the house, she heard a noise from outside and the dog barked, but she did not investigate the noise any further.

**OPINIONS AND CONCLUSIONS:****Summary:**

Based on the evidence at the scene and statements of parties involved, the following occurred:

P-1 was driving E/B Blossom Hill Road at approximately 30-35 mph. P-1 stated she may have been distracted while driving and had taken prescription medication(s) prior to the incident. Per W-1, P-1 was swerving and was unable to maintain her lane of traffic just preceding the collision. V-2 was legally parked in the north shoulder along the north curb line on Blossom Hill Road. In the area of the collision, P-1 swerved to the right approximately 6-8 feet over the right lane marker through the W/B bike lane and into the right shoulder. V-1 rear ended V-2 crushing P-2 who appeared to have been standing between the vehicles. P-2 suffered a fatal injury. V-1 sustained major front end damage and V-2 sustained major rear end damage. Both vehicles were towed from the scene and stored at Bob's Towing for evidence.

**Area of Impact:**

The AOI was determined by debris, skid/scuff marks, blood drops on the roadway, damage of vehicles involved, statements, and position of rest of the vehicles.

AOI#1 was determined by Ofc. Stanley #S062 to be 6' 6" south of the north curb line of Blossom Hill Road and 7' 9" east of the center of street lamp pole #404.

**Intoxication Narrative:**

W-1 described P-1's driving prior to the collision as "swerving" and unable to maintain her lane both to the left and to the right. The area of collision was on the north shoulder of the roadway, with an approximately five foot bike lane separating E/B lane two and the north shoulder of Blossom Hill Road. V-2 was unoccupied and legally parked along the north curb line of Blossom

Hill Road. P-1 was unable to provide details or remember why she veered off the roadway and rear ended V-2 crushing P-2 who appeared to have been standing behind V-2.

P-1 did not display any objective symptoms of alcohol intoxication, but had irrational behavior and admitted to prescription drug use prior to the collision. P-1 voluntarily gave a blood sample, which was taken by a VMC blood technician at the Los Gatos Monte Sereno Police Department. The blood sample from P-1 was booked it into the blood vault at Santa Clara County AIB. For addition information, see the supplemental report by Sgt. Field.

**Cause:**

The primary collision factor of this collision was P-1 in violation of CVC section 21658:

**VEHICLE CODE -**

**DIVISION 11. RULES OF THE ROAD [21000 - 23336] ( Division 11 enacted by Stats. 1959, Ch. 3. )**

**CHAPTER 3. Driving, Overtaking, and Passing [21650 - 21760] ( Chapter 3 enacted by Stats. 1959, Ch. 3. )**

**ARTICLE 1. Driving on Right Side [21650 - 21664] ( Article 1 enacted by Stats. 1959, Ch. 3. )**

**21658.**

**Whenever any roadway has been divided into two or more clearly marked lanes for traffic in one direction, the following rules apply:**

**(a) A vehicle shall be driven as nearly as practical entirely within a single lane and shall not be moved from the lane until such movement can be made with reasonable safety.**

**(b) Official signs may be erected directing slow-moving traffic to use a designated lane or allocating specified lanes to traffic moving in the same direction, and drivers of vehicles shall obey the directions of the traffic device.**

P-1 was not cited at the scene for this violation, pending the outcome of the ongoing investigation of the incident.

**Recommendations:**

I recommend this report be attached to criminal investigation report.

**ADDITIONAL INFORMATION:**

For page 2 of this report, Associated Factors, Inattention code "K" narrative:  
P1 admitted she could have looked at her phone to see the time, or could have been reaching for her sunglasses, reached for her insurance card, or could have taken her jacket off and any or all of those acts would have been distracted driving.

At the scene I was the first officer to enter V-1 and found the transmission was still in drive. I had Ofc. Stanley take photographs the interior of V-1 prior to looking for P-1's insurance. P-1's black purse was on the passenger seat leaning towards the driver side against the center console open. A red wallet was located above the dash (between the dash and windshield) on the passenger side. The red wallet, which contained P-1's CA driver license, and she later identified it as hers. Another black bag a little larger than a purse that contained papers was facing up, open, and was located on the passenger floor board near the passenger seat. I was unable to locate any insurance paperwork in either of the glove boxes or the center console. I was able to locate a pink slip for V-1 which I took a photograph of.

I returned to Police Operations Building and talked with P-1 who gave me permission to look for her insurance in her possessions and to bring her purse back to her at POB. I returned to the car and searched the purse, wallet, and black bag, but was not able to locate any proof of insurance. I transported the purse, wallet, and black bag to POB and gave them to her one at a time. When I handed P-1 the red wallet and told her where I found it, she stopped crying, turned to look directly at me, and very clearly and directly stated "somebody else must have put it there." I found her behavior to be a noticeable change from how she had been acting.

When P-1 could not locate any proof of insurance in her purse, she directed me to contact her husband who she is separated from. I contacted V-1's registered owner, B Bradanini via telephone. R/O-Bradani first said he signed over V-1 to his ex-wife Jennifer Higgins (P-1) and she is supposed to have insurance on the vehicle. I explained to him that I have spoken with P-1 who did not have proof of insurance on her and she had asked me to speak with him. R/O-Bradani stated he had not yet canceled the insurance on V-1 and provided me with the Mercury Insurance information listed on page one.

**MEDICATION GUIDE****[REDACTED] Tablets, C-IV**

What is the most important information I should know about [REDACTED]?

- [REDACTED] is a benzodiazepine medicine. Taking benzodiazepines with opioid medicines, alcohol, or other central nervous system [REDACTED] (including street drugs) can cause severe drowsiness, breathing problems (respiratory depression), coma and death.
- [REDACTED] can make you sleepy or dizzy, and can slow your thinking and motor skills.

Do not drive, operate heavy machinery, or do other dangerous activities until you know how [REDACTED] affects you

Do not drink alcohol or take other drugs that may make you sleepy or dizzy while taking [REDACTED] without first talking to your healthcare provider. When taken with alcohol or drugs that cause sleepiness or dizziness, [REDACTED] may make your sleepiness or dizziness much worse.

- Do not take more [REDACTED] than prescribed.

What is [REDACTED]?

- [REDACTED] is a prescription medicine used to treat [REDACTED] disorders for the short-term relief of the symptoms of [REDACTED] or [REDACTED] that can happen with symptoms of depression.
- [REDACTED] is a federal controlled substance (C-IV) because it can be abused or lead to dependence. Keep [REDACTED] in a safe place to prevent misuse and abuse. Selling or giving away [REDACTED] may harm others, and is against the law. Tell your healthcare provider if you have abused or been dependent on alcohol, prescription medicines or street drugs.
- It is not known if [REDACTED] is safe and effective in children less than 12 years of age.
- It is not known if [REDACTED] is safe and effective for use for longer than 4 months.

Do not take [REDACTED] if you:

- are allergic to [REDACTED], other benzodiazepines, or any of the ingredients in [REDACTED]. If you need more information about the ingredients in this medicine ask your pharmacist for a complete list.

Before you take [REDACTED] tell your healthcare provider about all of your medical conditions, including if you:

- have or have had depression, mood problems, or suicidal thoughts or behavior
- have a history of drug or alcohol abuse or addiction
- have lung disease or breathing problems (such as COPD, sleep apnea syndrome)
- have liver or kidney problems
- have or have had seizures
- are pregnant or plan to become pregnant. [REDACTED] may harm your unborn baby. You and your healthcare provider should decide if you should take [REDACTED] while you are pregnant.
- are breastfeeding or plan to breastfeed. [REDACTED] passes into your breast milk and may harm your baby. Talk to your healthcare provider about the best way to feed your baby if you take [REDACTED]. You should not breastfeed while taking [REDACTED].

Tell your healthcare provider about all the medicines you take including prescription and over-the-counter medicines, vitamins, and herbal supplements.

Taking [REDACTED] with certain other medicines can cause side effects or affect how well [REDACTED] or the other medicines work. Do not start or stop other medicines without talking to your healthcare provider.

How should I take [REDACTED]?

- Take [REDACTED] exactly as your healthcare provider tells you to take it. Your healthcare provider will tell you how much [REDACTED] to take and when to take it.
- If you take too much [REDACTED], call your healthcare provider or go to the nearest hospital emergency room right away.

What should I avoid while taking [REDACTED]?

- [REDACTED] can cause you to be drowsy. Do not drive a car or operate heavy machinery until you know how [REDACTED] affects you.
- You should not drink alcohol while taking [REDACTED]. Drinking alcohol can increase your chances of having serious side effects.

What are the possible side effects of [REDACTED]?

[REDACTED] may cause serious side effects, including

- See "What is the most important information I should know about [REDACTED]?"
- Depression. Pre-existing depression may emerge or worsen during use of benzodiazepines including [REDACTED].
- Abuse and dependence. Taking [REDACTED] can cause physical and psychological dependence. Physical and psychological dependence is not the same as drug addiction. Your healthcare provider can tell you more about the differences between physical and psychological dependence and drug addiction.
- Withdrawal symptoms. You may have withdrawal symptoms if you stop taking [REDACTED] suddenly. Withdrawal symptoms can be serious and include seizures. Mild withdrawal symptoms include a depressed mood and trouble sleeping. Talk to your healthcare provider about slowly stopping [REDACTED] to avoid withdrawal symptoms.

The most common side effects of [REDACTED] include

- sedation
- weakness
- dizziness
- unsteadiness

These are not all the possible side effects of [REDACTED]. Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.

How should I store [REDACTED] tablets?

- Store [REDACTED] tablets in a tightly closed container at 77°F (25°C); excursions permitted to 59° to 86°F (15° to 30°C).
- Keep [REDACTED] and all medicines out of the reach of children.

General information about the safe and effective use of [REDACTED]

Medicines are sometimes prescribed for purposes other than those listed in a Medication Guide. Do not use [REDACTED] for a condition for which it was not prescribed. Do not give [REDACTED] to other people, even if they have the same symptoms that you have. It may harm them. You can ask your pharmacist or healthcare provider for information [REDACTED] that is written for health professionals.

What are the ingredients in [REDACTED] tablets?

Active ingredients: [REDACTED]

Inactive ingredients: If you need more information about the inactive ingredients in this medicine ask your pharmacist for a complete list.

This Medication Guide has been approved by the U.S. Food and Drug Administration  
Issued 9/16

19-2865

**MEDICATION:**

0.5 MG TABLET. #00591-0240-05

**IMPORTANT:**

HOW TO USE THIS INFORMATION: THIS IS A SUMMARY AND DOES NOT HAVE ALL POSSIBLE INFORMATION ABOUT THIS PRODUCT.

**COMMON BRAND NAME(S):**

**WARNING:**

Taking [REDACTED] with opioid medications (such as codeine, hydrocodone) may increase your risk of very serious side effects, including death. To lower your risk, your doctor should have you take the smallest dose of [REDACTED] that works, and take it for the shortest possible time. Get medical help right away if any of these very serious side effects occur: slow/shallow breathing, unusual lightheadedness, severe drowsiness/dizziness, difficulty waking up.

**USES:**

This medication is used to treat [REDACTED]. [REDACTED] belongs to a class of drugs known as benzodiazepines which act on the brain and nerves (central nervous system) to produce a calming effect. This drug works by enhancing the effects of a certain natural chemical in the body (GABA).

**OTHER USES:**

This section contains uses of this drug that are not listed in the approved professional labeling for the drug but that may be prescribed by your health care professional. Use this drug for a condition that is listed in this section only if it has been so prescribed by your health care professional. If directed by your doctor, this drug may also be used for sleeping trouble (insomnia) or to reduce the symptoms of alcohol withdrawal. It may also be used to reduce the risk of nausea and vomiting due to chemotherapy.

**HOW TO USE:**

Read the Medication Guide provided by your pharmacist before you start taking [REDACTED] and each time you get a refill. If you have any questions, ask your doctor or pharmacist. Take this medication by mouth with or without food as directed by your doctor. The dosage is based on your medical condition, age, and response to treatment. If directed by your doctor, use this medication regularly in order to get the most benefit from it. To help you remember, use it at the same time(s) each day. If you suddenly stop using this medication, you may have withdrawal symptoms (such as seizures, trouble sleeping, mental/mood changes, nausea, vomiting, diarrhea, loss of appetite, stomach pain, hallucinations, numbness/tingling of arms and legs, muscle pain, fast heartbeat, short-term memory loss, very high fever, and increased reactions to noise/touch/light). To help prevent withdrawal, your doctor may lower your dose slowly. Withdrawal is more likely if you have used [REDACTED] regularly for a long time (more than 1-4 weeks) or in high doses or if you have a history of alcoholism, drug abuse, or personality disorder. Tell your doctor or pharmacist right away if you have withdrawal. Though it helps many people, this medication may sometimes cause addiction. This risk may be higher if you have a substance use disorder (such as overuse of or addiction to drugs/alcohol). Take this medication exactly as prescribed to lower the risk of addiction. Ask your doctor or pharmacist for more details. Do not

The information in this leaflet may be used as an educational aid. This information does not cover all possible uses, actions, precautions, side effects, or interactions of this medicine. This information is not intended as medical advice for individual problems.

suddenly stop using this drug without consulting your doctor. Some conditions may become worse when this drug is abruptly stopped. Your dose may need to be gradually decreased. When this medication is used for a long time, it may not work as well. Talk with your doctor if this medication stops working well. Tell your doctor if your condition persists or worsens.

### **SIDE EFFECTS:**

See also Warning section. Drowsiness, dizziness, loss of coordination, headache, nausea, blurred vision, change in sexual interest/ability, constipation, heartburn, or change in appetite may occur. If any of these effects persist or worsen, tell your doctor or pharmacist promptly. Remember that your doctor has prescribed this medication because he or she has judged that the benefit to you is greater than the risk of side effects. Many people using this medication do not have serious side effects. Tell your doctor right away if you have any unlikely but serious side effects, including: mental/mood changes (such as hallucinations, depression, thoughts of suicide), slurred speech or difficulty talking, vision changes, unusual weakness, trouble walking, memory problems, signs of infection (such as fever, persistent sore throat). Get medical help right away if you have any rare but very serious side effects, including: yellowing eyes or skin, seizures, slow/shallow breathing. A very serious allergic reaction to this drug is rare. However, get medical help right away if you notice any symptoms of a serious allergic reaction, including: rash, itching/swelling (especially of the face/tongue/throat), severe dizziness, trouble breathing. This is not a complete list of possible side effects. If you notice other effects not listed above, contact your doctor or pharmacist. In the US - Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088 or at [www.fda.gov/medwatch](http://www.fda.gov/medwatch). In Canada - Call your doctor for medical advice about side effects. You may report side effects to Health Canada at 1-866-234-2345.

### **PRECAUTIONS:**

Before taking [REDACTED], tell your doctor or pharmacist if you are allergic to it; or to other benzodiazepines (such as alprazolam, clonazepam, diazepam); or if you have any other allergies. This product may contain inactive ingredients, which can cause allergic reactions or other problems. Talk to your pharmacist for more details. Before using this medication, tell your doctor or pharmacist your medical history, especially of: kidney disease, liver disease, glaucoma, lung/breathing problems (such as sleep apnea), mental/mood disorders (such as depression, psychosis), personal or family history of a substance use disorder (such as overuse of or addiction to drugs/alcohol). This drug may make you dizzy or drowsy or blur your vision. Alcohol or marijuana (cannabis) can make you more dizzy or drowsy. Do not drive, use machinery, or do anything that needs alertness or clear vision until you can do it safely. Avoid alcoholic beverages. Talk to your doctor if you are using marijuana (cannabis). Before having surgery, tell your doctor or dentist about all the products you use (including prescription drugs, nonprescription drugs, and herbal products). Older adults may be more sensitive to the side effects of this drug, especially loss of coordination and drowsiness. Also, the elderly may not experience relief of [REDACTED] with [REDACTED]. It may have the opposite effect on the elderly, causing symptoms including mental/mood changes, sleeping problems, increase in sexual interest, or hallucinations. Loss of coordination, drowsiness, and sleeping problems may increase the risk of falling. Children may not experience relief of [REDACTED] with [REDACTED]. It may have the opposite effect on children, causing symptoms including agitation, shaking, or hallucinations. This medication is not recommended for use during pregnancy. It may harm an unborn baby. Tell the doctor right away if you notice symptoms in your newborn baby such as slowed breathing, feeding problems, or constant crying. Consult your doctor for more details. This drug passes into breast milk. Consult your doctor before breast-feeding.

### **DRUG INTERACTIONS:**

See also Warning section. Drug interactions may change how your medications work or increase your risk for serious side effects. This document does not contain all possible drug interactions. Keep a list of all the products you use (including prescription/nonprescription drugs and herbal products) and share it with your doctor and pharmacist. Do not start, stop, or change the dosage of any medicines without your doctor's approval. Some products that may interact with this drug include: clozapine, kava, sodium oxybate (also known as gamma hydroxybutyrate or GHB). The risk of serious side effects (such as slow/shallow breathing, severe drowsiness/dizziness) may be increased if this medication is taken with other products that may also cause drowsiness or breathing problems. Tell your doctor or pharmacist if you are taking other products such as opioid pain or cough relievers (such as codeine, hydrocodone), alcohol, marijuana (cannabis), other drugs for sleep or [REDACTED] (such as alprazolam, diazepam, zolpidem), muscle relaxants (such as carisoprodol, cyclobenzaprine), or antihistamines (such as cetirizine, diphenhydramine). Check the labels on all your medicines (such as allergy or cough-and-cold products) because they may contain ingredients that cause drowsiness. Ask your pharmacist about using those products safely.

The information in this leaflet may be used as an educational aid. This information does not cover all possible uses, actions, precautions, side effects, or interactions of this medicine. This information is not intended as medical advice for individual problems.

**OVERDOSE:**

If someone has overdosed and has serious symptoms such as passing out or trouble breathing, call 911. Otherwise, call a poison control center right away. US residents can call their local poison control center at 1-800-222-1222. Canada residents can call a provincial poison control center. Symptoms of overdose may include confusion, slow reflexes, clumsiness, deep sleep, and loss of consciousness.

**NOTES:**

Lifestyle changes such as starting a stress reduction program may increase the effectiveness of this medication. Talk to your doctor or pharmacist about lifestyle changes that might benefit you. Do not share this medication with others. Sharing it is against the law. Laboratory and/or medical tests (such as blood counts, liver function tests) should be performed periodically to monitor your progress or check for side effects. Consult your doctor for more details.

**MISSED DOSE:**

If you miss a dose and are taking more than 1 dose daily, do not take it if it is almost time for the next dose. Instead, skip the missed dose. Take your next dose at the regular time. Do not double the dose to catch up. If you take it once daily at bedtime and miss a dose, do not take it the following morning. Call your doctor to find out what to do.

**STORAGE:**

Store at room temperature away from light and moisture. Do not store in the bathroom. Keep all medications away from children and pets. Do not flush medications down the toilet or pour them into a drain unless instructed to do so. Properly discard this product when it is expired or no longer needed. Consult your pharmacist or local waste disposal company.

**MEDICAL ALERT:**

Your condition can cause complications in a medical emergency. For information about enrolling in MedicAlert, call 1-888-633-4298 (US) or 1-800-668-1507 (Canada).

5. Consent to search form for Electronic Devices.

#### Narrative:

On 12/16/2019 I was assigned to the Detective Bureau when I responded to assist other members of the Los Gatos-Monte Sereno Police Department on a traffic collision that resulted in a death of a pedestrian. I responded to the collision, located on Blossom Hill Rd between Cherry Blossom Ln and Cherrystone Dr, at approximately 1155 hours. Upon my arrival, I used my bureau assigned, silver Ford Explorer to block the view of the decedent from the public's view. Detective Sgt Lunsford advised me to bring the evidence trailer to the scene to aid with the investigation. I used Detective Sgt Lunsford's, bureau assigned, silver Ford F-150 to retrieve the evidence trailer. Upon returning to the scene I noticed a female, later identified as Jennifer Bradanini, in LGMSPD Motor Officer Baughn's collision investigation, walking with Captain D'Antonio and Sgt Field to Captain D'Antonio's police assigned black Dodge Charger.

I returned with the evidence trailer and was briefed by officers at the scene of the circumstances surrounding the collision. I learned that Party #1, Bradanini, was driving a white Range Rover on westbound Blossom Hill Rd and struck a male that was standing to the rear of a white Honda Pilot that was parked against the north curb line of Blossom Hill Rd. The pedestrian was pronounced dead at the scene.

The area on Blossom Hill Rd where the collision occurred was lined with residential housing along the northside of the street. The southside of the street consisted of Blossom Hill Park and Blossom Hill Elementary School. I canvassed the houses on the northside of the street for potential witnesses and video cameras. On 12/16/2019 I attempted to contact the below listed residences located on Blossom Hill Rd for witnesses and cameras:

House number	Contact made	Video camera facing Blossom Hill Rd	Video Available
941	Yes	Yes	No
943	Yes	Yes	No
945	No	No	No
947	No	No	No

### Narrative

949	No	No	No
951	Yes	No	No
953	No	No	No
957	No	No	No
963	Yes	Yes	Yes
965	No	No	No

During my canvass, I spoke with R [REDACTED] Iwanaga at [REDACTED] Blossom Hill Rd. He had a video camera that faced Blossom Hill Rd; however, it was not functioning at the time of the incident. I contacted S [REDACTED] Young ([REDACTED]), resident at [REDACTED] Blossom Hill Rd, via phone. S [REDACTED] advised that his video cameras do not work. I contacted C [REDACTED] Black at [REDACTED] Blossom Hill Rd. He told me he was home and ran outside after hearing the collision. Black was aware that the white Range Rover (Vehicle #1 in Officer Baughn's collision investigation) had been involved in the collision at about 1140 hours and would look for it passing by his home on his video footage.

I was instructed by Captain Tada, at the scene, to interview Jenny Bradanini (Driver of the Range Rover) with Sgt Elliott at the Los Gatos Police Operations Building. I met with Captain D'Antonio and Sgt Field at the LGMSPD Operations Building. They advised me that Bradanini had consented to provide a blood sample and had signed a consent form for the search of her blood sample. Blood Tech Thu Truc Nguyen arrived at the Operations Building and took a blood sample from Jennifer Bradanini. Sgt Field and I witnessed the blood draw and we used our issued body worn cameras to record the procedure. I took custody of the blood sample and the consent form from Sgt Field. Ofc Freeman took custody of the blood sample and transported it to the AIB blood vault. Captain D'Antonio informed me that Jenny Bradanini's associates were waiting in the lobby and had brought her some medicine that she had requested.

I met with a E [REDACTED] Stroker in the lobby and used my body worn camera to record our conversation. Stroker advised me that he was Jenny's housemate and campaign manager he brought medicine that Jenny Bradanini needed and proceeded to show me the two pill bottles. The first bottle I inspected was labeled [REDACTED] .5 mg. The bottle contained about 8 small pills. The date filled was 8/29/19, quantity filled was 30. The second bottle I inspected was labeled [REDACTED] 20 mg, filled 11/22/19, quantity filled 30. I did not get a count on the [REDACTED], but it appeared there were still more than half of the original quantity. Stroker retained the medicine until after my interview concluded with Bradanini.

Sgt Elliott and I conducted the interview with Jennifer Bradanini in the Los Gatos-Monte Sereno Police Department's non-custodial interview room located adjacent to the front lobby. We entered the interview room through the unlocked and open door. Bradanini was in the room with the Victim Services Unit Personnel and Sgt Field. Bradanini was kneeling on the floor with her head on the ground. She was visibly distraught and was crying into a pillow on the floor. Sgt Field and the VSU Personnel exited the interview room. I began recording the interview using my body worn camera. I made sure that the interview room door that allowed access to the lobby area was unlocked to make sure Bradanini had free access to leave the building. Sgt Elliott and I sat away from the door and Bradanini sat close to the door. Sgt Elliott and I introduced ourselves.

I provided a Beheler advisement to Jennifer Bradanini. I told her that she was not under arrest. Bradanini spontaneously stated, "I killed somebody". I pointed to the door behind her, told her it was unlocked, and that if she needed to get out, she could pass through the two sets of doors and into the lobby. I gave Bradanini my LGMSPD business card and as I did, Captain D'Antonio entered the room and told Bradanini that L [REDACTED] (friend of Jennifer Bradanini) was there to pick up some medicine and she was requesting Bradanini's insurance card. Bradanini pulled two insurance cards from her wallet and provided them to Captain D'Antonio. She then provide the following summarized statement. Refer to the body worn camera video for the entire statement.

### Statement of Jennifer Higgins Bradanini:

I asked Bradanini to tell me about herself and what had happened.

JB: My name is Jenny. I went down to City Hall today. I'm President of a Women's March and we're having a big March on January 18th. I left there and have a new pharmacy, Sorci Pharmacy. That's where I was going.

### Narrative

Is that the one next to Nob Hill?

JB: Yeah.

I asked about her routine that morning and what time she woke up.

JB: Seven I think.

Did you have anything for breakfast?

JB: (No verbal response. Bradanini shook her head from side to side indicating No).

Did you have any coffee, or anything like that?

JB: (No verbal response. Bradanini shook her head from side to side indicating No).

Sgt Elliott: Have you eaten at all today?

JB: (No verbal response. Bradanini shook her head from side to side indicating No).

Sgt Elliott: Someone offered you food, I believe. You didn't want any?

JB: Yeah. No.

Sgt Elliott: You had coffee? Or didn't have coffee?

JB: (No verbal response. Bradanini shook her head from side to side indicating No.)

Sgt Elliott: You typically don't drink coffee?

JB: I do, but I was just running late. I just didn't make it today.

What time did you fall asleep last night?

JB: About 10ish. I was having rough [REDACTED] at night so I did take two [REDACTED].

Is that normal?

JB: Not too normal.

Is that something you take every night at a specific time? Or is it just as needed?

JB: As needed.

What is the stress? What is going on?

JB: It's a lot. I'm going through a divorce and the kids are spending Christmas with B [REDACTED] that day and I wanted them to spend the whole weekend and I just got myself kind of [REDACTED].

You said you took two ([REDACTED] 5 mg tablets?

JB: Yes.

At about what time was that at?

JB: I think I fell asleep, then woke up so it might have been around 11:30, maybe.

Does that help you sleep?

JB: Sometimes, but no.

I guess if your pretty stressed.

JB: Sometimes.

Sgt Elliott: Is it more for [REDACTED], or for sleep?

JB: [REDACTED] I can usually sleep pretty good.

Sgt Elliott: So is that something you can take during the day and it wouldn't make you sleepy?

JB: Um-hum. I have in the past, yeah.

Sgt Elliott: And it doesn't make you feel drowsy?

JB: (shakes her head from side to side indicating No). And the only other thing I took the day before...Uhm, [REDACTED]. So I take medication when I'm in a flare up. And so I took one at probably about 4 PM.

Sgt Elliott: What is it that your prescribed for that?

### Narrative

JB: [REDACTED]

Sgt Elliott: And do you know the dosage on that?

JB: Yes, it's pretty high. 30 mg.

And how many 30 mg (pills) was it?

JB: Just one.

Sgt Elliott: How does that make you feel? Do you feel the effect of that?

JB: (Bradaniini shakes her head from side to side indicating No) Not really.

Sgt Elliott: You didn't take any of that today, yesterday was the last time you took it?

JB: (Bradaniini shook her head to confirm that she did not take any of that ([REDACTED]) today).

Sgt Elliott: After taking the [REDACTED], were you able to get a decent nights rest? Were you able to sleep after that?

JB: Yeah, I slept enough, but I woke up anxious a little bit. I couldn't go back to sleep.

So you woke up about 7ish?

JB: Maybe. Yeah, about that.

Did you still feel pretty tired? Did you feel like you got some rest?

JB: I'm running for office, and I have a job, and a family, and I'm getting divorced.

Sgt Elliott: How long have you been taking [REDACTED]?

JB: Off and on for a couple of years.

Sgt Elliott: So it's not a new thing?

JB: No.

Sgt Elliott: How about the [REDACTED]?

JB: The [REDACTED], I've been taking for years, but that was the last one I'm taking. I'm meeting with this other doctor, which is where I was going. We were switching me off that to a non-opiate.

Did you take any medicine this morning?

JB: I can't remember. I take [REDACTED] in the mornings, but I don't think I took it this morning.

What is [REDACTED] for?

JB: It's an [REDACTED].

Sgt Elliott: Is that a daily thing?

JB: He had me on [REDACTED] and that was making me feel sleepy so he added in the morning [REDACTED]. I have been taking the [REDACTED] at night and the [REDACTED] in the morning.

Sgt Elliott: So did you take that last night as well?

JB: Yeah. I take a bunch of vitamins and stuff, so I took that for sure last night.

So did you take the [REDACTED]?

JB: I don't think I did. I'm pretty sure I didn't. Usually I try to like do it, and get out of bed, but I don't think I did this morning.

About what time did you leave the house this morning?

JB: I had to be there at 10 and got there about 10:06. I think left about 20 to 10:00.

Sgt Elliott: Where do you live?

JB: In Almaden. On Emami Dr.

What are the cross streets over there?

JB: McKean and Almaden Rd.

Sgt Elliott: What time did you leave your meeting at City Hall?

### Narrative

JB: It went a little bit over. About 11 we walked out, said goodbye to everyone, got into my car, and headed down here.

Sgt Elliott: Did anything unusual happen between here and where you ended up?

JB: Nothing. I didn't even talk on the phone to anyone.

No phone calls in between?

JB: I think he said that..... My daughter had sent me a Christmas list. It looked like you had wrote an "L" (Bradaniini was referring to Ofc Alldredge addressing the text message that was on her phone before she left the scene of the collision). You know what I think happened? I was panicking when I got my phone, turned it on, and I might have just hit "L" there. I couldn't even figure out how to call 911 right away. I was so.....I promise I wasn't texting.

Sgt Elliott: you had made a comment to the Motorcycle Officer that was out there (Ofc Baughn). He mentioned that you had said you may have looked at the time on your phone. Do you remember saying that?

JB: No. No. I said I had a jacket on though. I don't remember if got the....Did I take my jacket off? I'm trying to figure out how I would've swerved over into that lane. I did not look at the time.

Sgt Elliott: Were you pretty aware of your surroundings while driving from city hall to here? Can you retrace your route? And think of how you came here?

JB: Um Hum. I pulled out of City Hall and I put in Home in the Um....To figure out the best way Um....City Hall... And so then I came up like I was going to my house..On Camden went up and went down Blossom Hill. And what ever. Was that Blossom Hill I was on?

So you were coming from downtown San Jose? Did you take the highway?

JB: I took the highway

So you took Highway 87 when you were coming back towards Almaden?

JB: Yeah, I got off....Why is it so blurry to me on this?

Sgt Elliott and I advised Bradaniini that what she was feeling wasn't uncommon for someone that experienced a traumatic event.

JB: All of a sudden I just totally spaced on it.

Sgt Elliott asked for Bradaniini to try to retrace her route again leaving City Hall to here.

JB: It seemed so like four days ago it happened. I was facing towards City Hall. So I had to go..I probably turned down....Oh yeah, to Almaden Rd or whatever. That second...Yeah..No I got off on.....

Sgt Elliott: You got onto the freeway you thought?

JB: Why can't I remember this right now?

Sgt Elliott: I see you have a scratch on your forehead. Did you hit your head?

JB: No

Sgt Elliott: You didn't loose consciousness?

JB: I don't know. I don't know. I don't know. I don't know. Like it was weird. I knew...I saw...I remember seeing him. He was over on the like the side of his car and the car was pulled in there. I think he was getting something out of the car. So I remember seeing him from far back so I don't know how I ended up hitting him. I don't know.

Sgt Elliott: You don't have any recollection, or was your attention diverted elsewhere?

JB: I don't know. That's what I don't know. And the thing was I knew that...When I got out... I was like oh my God! Where's the guy. I saw him there and I freaked out. I tried to get my phone. I was trying...No one was coming over to help me. I was like put something over him...And they were like, are you OK? I didn't know what to do. I didn't know what to do.

Sgt Elliott: You recalled seeing him. About how far away were you when you initially saw him?

JB: (muffled) 30 to 40 feet.

Sgt Elliott: Do you know about how fast you were traveling?

## Los Gatos/Monte Sereno Police Department

19-2865

Supplement No  
0001

### Narrative

JB: Just normal speed. I wasn't passing any cars.

Sgt Elliott: Were you following behind another car?

JB: For a point of time, but I don't think there was anyone in front of me when that happened though. Is it normal to not.....

Sgt Elliott: Going back to your travel from City Hall. You left City hall and some how made it to the freeway?

JB: (Bradani laid her head onto the table about 30 seconds before responding) Oh my God. It's like nothing.

Sgt Elliott: What do you recall? Do you remember turning onto Blossom Hill?

JB: Yeah.

Sgt Elliott: And that was from Camden?

JB: (Bradani nodded her head up and down indicating Yes)

Sgt Elliott: So you turned onto Blossom Hill Rd from Camden and you were driving towards Los Gatos on Blossom Hill Rd. What was the traffic like?

JB: It wasn't very busy.

Sgt Elliott: It narrows down to one lane (Blossom Hill Rd) and your traveling up and over the hill, do you remember that portion of it?

JB:Uhm Hum.

Sgt Elliott: Do you remember if there is someone in front of you at that time?

JB: No

Sgt Elliott: Can you picture that portion of the drive?

JB: Yeah because I can remember seeing and think there's a guy right there.

How long have you had your car?

JB: A while.

I noticed you car had paper plates?

JB: It was stolen. We just got it back. I'm going through a divorce. I couldn't get new plates until he (ex-husband) switched it over into my name.....

So the car is not new to you?

JB: (Bradani shakes her head from side to side indicating No).

Sgt Elliott: So you are the original owner of the car?

JB: No. We bought the car 5 years ago.

Do you know if there is anything mechanically wrong with the car?

JB: No. You know what? The tire thing did come on saying low flat tire. That happened yesterday.

Did it indicate which tire?

JB: Left. Back.

Sgt Elliott: Did you look at it to see if it was flat?

JB: Yeah. It didn't. My friend said he could fix it when I got home.

Sgt Elliott: Other than that, it wasn't acting funny? There's nothing that you noticed mechanically wrong with it?

JB: It was making a weird tick-tick-tick today, but I thought it was coming out of my buttons in there.

Was that coming from the front of the car, the back of the car?

JB: The back of the car.

If you apply the brakes, does it function normally?

JB:Uhm hum (Nods her head yes).

Report Officer <b>S075/HOYT, HAROLD</b>	Printed At <b>04/29/2020 13:44</b>

# Incident Report

## Los Gatos/Monte Sereno Police Department

19-2865

Supplement No  
0001

### Narrative

If you apply the brakes, it continues straight until you slow, or stop?

JB: (Bradani nod yes) Yes.

Sgt Elliott: What year is that car?

JB: 2013.

Sgt Elliott: From the moment you got up this morning, through your meeting and traveling here to Los Gatos, you didn't have anything to eat?

JB: (Bradani shakes head from side to side indicating No)

Sgt Elliott: You didn't drink any alcohol?

JB: No. I don't drink.

Sgt Elliott: So you recalled seeing him about 40 feet ahead. Were you focused on him at all as you were driving?

JB: That's the only thing I kinda remember was him. Like that's very clear to me.

Sgt Elliott: Can you describe him to me? What did he look like?

JB: He was by the side of the white car bending over doing something or pulling something out of it.

Could you tell if he was White, Black, Hispanic?

JB: White.

While you were driving you could tell that?

JB: It's hard to know if I noticed that.

Sgt Elliott: And you don't know him?

JB: (Bradani shakes her head from side to side indicating No).

Sgt Elliott: After having some time to think about what happened, what do you think happened?

JB: I don't know. I wonder if I took off my jacket. Because I had another jacket on, but I don't have a clear recognition and it's killing me.

Sgt Elliott: As you saw him, do you remember doing anything? Manipulating anything?

JB: (Bradani doesn't answer the question and looked at the wall and expressed concern that she could not remember much) Is it going to come back to me? Am I going to remember it?

Sgt Elliott: Have you driven when you're really tired? Was similar to that (not verbatim)?

JB: It seems that way I can't remember how I got there. It makes me think that....I don't know how to answer for you. I want to help. It's my fault. All I can see is him on the ground. It's all my brain will let me see. It's awful.

Sgt Elliott: Did you call 911?

JB: The lady said you need to sit down I'm calling 911.

Sgt Elliott: So someone came and offered to help?

JB: (Bradani nodded yes).

Sgt Elliott: And was that who called 911?

JB: I tried. I couldn't figure out how to work my phone. Everything was like...Oh my God, Oh my God...

Sgt Elliott: There was someone that stopped that was traveling ahead of you on Blossom Hill Rd. This person was watching in the mirror because she had noticed you cross over the center line on Blossom Hill Rd. Do you remember that happening?

JB: (Bradani shook her head no). But do you think I crossed over then veered back?

Sgt Elliott: This is prior. This is up and over the one lane portion. She noticed your car move into the on coming lane of traffic and that it happened a couple of times. She kept watching to make sure you were going to be all right. Do you remember veering over or having to make corrections to get your car back into the lane?

At any point after leaving City Hall? Or on your way to City Hall?

### Narrative

JB: No. I remember that I dropped my water bottle once and I got it.

Sgt Elliott: Do you remember when that happened?

JB: I think right on...coming up on Blossom Hill.

Sgt Elliott: And you dropped it on the floor?

JB: Yeah

Sgt Elliott: But you think you had that situation resolved prior to having noticed the guy on the side of the road?

JB: It might have been right around that time. Maybe...I don't know.

Sgt Elliott: You mentioned that last night you had two [REDACTED] which was unusual because you don't normally take two.

JB: It wasn't unusual. I just don't do it that often.

Sgt Elliott: When you take [REDACTED] you typically take two?

JB: I can take two.

Sgt Elliott: Do you typically take it in conjunction with [REDACTED] and the other medication?

JB: I can, but I didn't. I took it way after that. Do think that's what happened.

Sgt Elliott: We are trying to determine if there was medication you took that may have had some influence on you being tired

JB: it was nothing out of the ordinary.

Sgt Elliott: Were you speaking at this event?

JB: Yes

Sgt Elliott: Is it like a press conference?

JB: No. It's just all of the departments get together and we go over the plan for the Womens March and we had the D.O.T. and three Police Officers there. We had people there from the city that puts on the event.

Have you been in any other accidents lately?

JB: No.

Do you were corrective lenses for your eyes?

JB: Uhm-hum.

Contacts? Are you wearing them now?

JB: (Bradani nods her head yes).

What's your vision like without them?

JB: Not very good.

Sgt Elliott: Has the prescription changed recently?

JB: It changed about maybe a month and a half ago, 2 months ago.

Sgt Elliott: When it changed (the vision prescription) did you notice a difference?

JB: Yeah, it's actually a little bit worse. I have to wear my readers when I'm reading.

Sgt Elliott: But distance (vision) is OK?

JB: Distance is OK.

Sgt Elliott: You remember seeing him, but that's the last thing you remember?

JB: Yeah.

Sgt Elliott: Do you remember the impact? The collision itself ?

JB: (Bradani shakes her head No.)

Sgt Elliott: What's the first thing you remember after seeing him?

## Los Gatos/Monte Sereno Police Department

19-2865

Supplement No  
0001

### Narrative

JB: The airbag. And then I remembered there was....So how I knew I had seen...The guy...Oh my God please tell... Then I saw him there.

Sgt Elliott: When the airbag went off, was it a complete surprise?

JB: yeah.

Sgt Elliott: So you didn't see it coming and hit the brakes?

JB: I don't think I did. Maybe...I don't know what happened...Did I black out? I don't know. Did anyone see?

Sgt Elliott: Has anything like that happened before? Where you have lost a period of time?

JB: No.

### Narrative Continued:

At 1638 hours Sgt Elliott offers Bradanini food, water, coffee, and the opportunity to use the restroom. She did not want anything and Sgt Elliott and I stepped outside. Sgt Elliott discussed that we needed to evaluate Bradanini for a possible mental health hold because she had mentioned to another officer about wanting to die. Upon our return, I brought a consent to search form to have Bradanini sign for the search of her phone.

### Statement Continued:

Your phone had a crack on it. When did that get cracked?

JB: A long time ago

Normally when you're driving somewhere, where do you keep the phone?

JB: I usually listen to a book, but I didn't today. My phone was in my purse.

When you listen to the books, how do you usually play it?

JB: On the blue-tooth.

(In filling out the consent form, I asked Bradanini a series of questions about her phone). She told me that it was an iPhone 11, her number was [REDACTED], the carrier was Verizon and the access code was 121212. Bradanini signed the consent form to search the phone.

### Statement Continued:

Sgt Elliott: One of the officers had made a comment that she wanted to die. Are you feeling suicidal?

JB: I just don't want to be here. I killed somebody.

Sgt Elliott: What do you mean by that?

JB: How do I ever face his face his family? I took somebody's life by accident and I don't know how you ever get past that.

Sgt Elliott: It's important that you get some help and to have some good friends around you.

JB: I'm Not suicidal. I just don't want to be here. I just don't know how I can live anymore.

Sgt Elliott: What are you going to do when you leave here?

We want to make sure you are safe.

JB: Go home with E [REDACTED] and E [REDACTED]

Sgt Elliott: In talking to you over the last few minutes, It sounds that there is a lot you don't remember. Do you think it's possible that you just don't remember using your phone? Or do you feel pretty confident that

JB: I think I'm confident I didn't use my phone. Pretty confident.

Sgt Elliott: The reason I'm asking is because there was a text with an "L" (There was an outgoing text to Bradanini's daughter with the letter "L" that was not sent).

JB: I'm pretty sure that was on there because I was trying crazy to unlock it and I remember kind of hitting that..And I'm like No, No, and trying to get into the dial screen.

Sgt Elliott: And that was a message from?

# Incident Report

## Los Gatos/Monte Sereno Police Department

19-2865

Supplement No  
0001

### Narrative

JB: My daughter.

Sgt Elliott: And that was regarding a Christmas list?

JB: Yes, so "L" wouldn't have anything to do with it

Sgt Elliott: When did you recognize that's what it was?

JB: I never did until you handed it to me. That's when I saw. I never saw that text.

### Narrative Continued:

Sgt Elliott then explained the reporting process to Bradanini and concluded the interview. We then went into the lobby and met with Bradanini's friends, J [REDACTED] and L [REDACTED]. Sgt Elliott explained that at any point if they felt that Bradanini was going to hurt herself, to call 911. Bradanini met with her associates in the lobby and left.

I later returned to C [REDACTED] Black's home and reviewed the video footage of the Range Rover passing his home. I noticed that Black's Mobotix Video system also recorded audio. Black advised that his camera does work and would provide me footage of traffic passing his home via an e-mail. I received the video, along with still images taken from the video, and reviewed it with Officer Stanley. Per the video, at approximately 11:39:14 hours (time stamp), I observed the white Range Rover traveling westbound Blossom Hill Rd. Seconds after the Range Rover traveled out of camera view, the sound of the collision was heard. I downloaded the video to a disc for evidence and provided Officer Stanley an extra copy.

### Follow Up:

None.

### Recommendations :

I recommend that this report be attached to the original.

## Declaration of Person Qualified to Perform Venipuncture

I am qualified pursuant to the California Business and Professional Code section 1246, Title 17 of the California Code of Regulations, and / or the California Vehicle Code section 23158 to perform venipuncture and was so qualified when I worked as a (check all that apply):

☐ Clinical Laboratory Scientist  
☐ Licensed Clinical Laboratory Technologist  
☐ Registered Nurse  
☐ Licensed Vocational Nurse  
☒ Certified Phlebotomy Technician

On 12/16/19 when I took blood from a person identified to me as:

JENNIFER HIGGENS BRADANINI

I performed the blood draw using the following procedures:

I cleansed the area to be punctured with the non-alcoholic disinfectant and the Arresting Officer witnessed my use of the non-alcoholic disinfectant with the above-name defendant.

A sterilized needle, holder and needle protector was employed to withdrawn blood from the defendant's vein. I will withdraw enough blood to fill the vacuum vial furnished by the Santa Clara Crime Laboratory. Prior to using it, I examined the vacuum vial and observed that it contained a dry white powder.

I discarded the needle, holder and disinfectant and inverted the vial 8 to 10 times to prevent the blood from clotting.

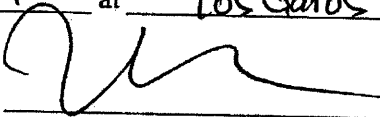

I labeled the vials of blood with the full name of the defendant, the date and time of withdrawal and place my initials on the label.

I gave the vial to the Officer who accompanied the defendant, and I observed the Officer place the vials in the envelope furnished by the Santa Clara Crime Laboratory and seal it.

The sample(s) was/were taken and handle in a medically approved manner.

I, Thu Truc Nguyen, declare under penalty of perjury that under the laws of the State of California the foregoing is true and correct.

### Narrative

I. **ADDITIONAL ATTACHMENTS:** None.

### II. NARRATIVE:

On 12/16/2019, at approximately 1142 hours, I was dispatched to an unknown injury traffic collision that was updated to a fatal injury collision at Blossom Hill Road and Cherry Blossom Lane. For details concerning the accident refer to the original and attached supplemental reports.

Shortly after arrival, I was called to Officer Baughn's location. I saw that he was speaking with the driver of the Land Rover, Jennifer Bradanini. Officer Baughn told me that (S) Bradanini gave consent for us to search her phone. I took (S) Bradanini's phone and she told me her passcode was "121212."

I searched the phone per (S) Bradanini's consent. I saw several recent text messages. I took screenshots of these messages. I later transferred these images to a DVD and booked it into evidence under this case number. I saw one text message of note that was sent from a "Cruz, D [REDACTED]" that had a time stamp of 1133 hours. I saw that there was a letter "L" typed in the response field. I asked Dispatch for the time of the first call regarding the accident, and they advised that it was 1140 hours.

# Incident Report

## Los Gatos/Monte Sereno Police Department

19-2865

Supplement No  
0003

### Narrative

#### ADDITIONAL ATTACHMENTS:

CHP 556 Injured/Witness/Passengers Form

#### NARRATIVE:

On 12-16-2019 at approximately 1140 hours, I was working patrol in full uniform and was driving marked patrol vehicle # 8. I responded to the area of Blossom Hill Road at Cherry Blossom Lane, on the report of a vehicle collision. Los Gatos Police Dispatch advised a white Range Rover had collided into the back of a white "Toyota." I responded from Blossom Hill Road at Oak Meadow. While in route to the scene, Los Gatos Police Dispatch advised one of the involved parties could have died as a result of the collision. I then responded Code 3 (Lights/Siren) to the scene.

Upon my arrival I located the white Ranger Rover (V1) which had collided into the rear end of the white Honda (V2), which was located on the street in front of 937 Blossom Hill Road. As I approached (V1) and (V2) I noticed (P2) lying on the ground in between both vehicles. (P2)'s legs had been severed and I noticed severe trauma to (P2)'s body. I met with (W2) who was an off-duty San Jose Fire Captain who had been tending to (P2). (W2) told me (P2) had died as a result of the collision. I met with (P1) who was distraught and admitted to driving (V1). After Officer Baughn met with (P1) I began to conduct witness interviews, and collect statements from witnesses on scene. I had my department issued Viewu body camera activated during this incident. This report is a summary of what occurred, see video for further details.

#### WITNESSES:

Witness # 1 was identified as (W1) V Lerman.

Witness # 2 was identified as (W2) E Dziuba (Off duty San Jose Fire Captain).

Witness # 3 was identified as (W3) E Aviléz.

#### STATEMENTS :

##### INITIAL STATEMENT OF (P1) HIGGINS:

I made contact with (P1) who admitted to being the driver of the white Range Rover (V1). (P1) continued to ask me, "Is he dead? Is he dead?" (P1) told me she hit (P2) in the back. (P1) told me (P2) was standing behind his car and she "swung in and hit him." I asked (P1) if there was anyone else inside her vehicle and she told me no. I asked (P1) if she had any alcohol or medication and she told me she did not. I asked (P1) where she had been going and she told me she was going to get her medicine at the pharmacy in Los Gatos.

It should be noted that I did not notice any visible injuries on (P1) during my contact with her.

##### STATEMENT OF (W1) LERMAN:

(W1) informed me she had been driving westbound on Blossom Hill Road and was directly in front of (V1). (W1) informed me as she continued to drive westbound on Blossom Hill Road from the area of Union Avenue, she noticed (V1) begin to swerve behind her, which caused the tires of (V1) to go over the center lane line and go into the opposite lane. (W1) told me she noticed (V1) continue to swerve as they continued on Blossom Hill Road.

(W1) informed me as she approached the area in front of Blossom Hill Park where the lanes split into two lanes, she noticed (V1) behind her. (W1) told me (V1) was in the number # 2 lane on Blossom Hill Road, and she noticed (V1) continue to swerve in and out of the bike lane and even drive in the bike lane for a period of time. (W1) told me she was going to call 911 to report (V1), as she believed (P1) could have been intoxicated. (W1) told me as they continued westbound on Blossom Hill Road she heard the collision behind her. (W1) noticed it was (V1) that had gotten into the collision with a parked vehicle. (W1) informed me she pulled around and parked her vehicle near the collision to make sure (P1) was alright. (W1) told me as she exited her vehicle she noticed (P2) lying on the ground injured so she went back to her vehicle and called 911.

(W1) told me she did not believe (P1) was on her cell phone during the collision as she noticed her in her rearview mirror. (W1) told me she had been driving approximately 35 MPH on Blossom Hill Road at the time of the collision.

# Incident Report

## Los Gatos/Monte Sereno Police Department

19-2865

Supplement No  
0003

### Narrative

#### STATEMENT OF (W2) DZIUBA:

(W2) Dziuba was the person who I contacted when I first arrived on scene. I noticed (W2) had on latex gloves and appeared to have been tending to (P2). (W2) Dziuba informed me (P2) was deceased. (W2) informed me he had been driving eastbound on Blossom Hill Road and noticed the vehicle collision after it had occurred. (W2) told me he noticed a body on the ground near the collision, so he stopped to assist.

(W2) told me he exited his vehicle and made contact with (P1) who was standing on the sidewalk and made sure she had called 911. (W2) informed me he approached (V1) and (V2) and noticed (P2) lying face down between both vehicles with significant body trauma. (W2) told me he checked (P2)'s carotid to see if he had a pulse, which he did not have. (W2) told me he had tended to (P2) as I had arrived on scene. (W2) told me he did not notice anyone near (P2) when he stopped to assist.

#### STATEMENT OF (W3) AVILEZ:

(W3) informed me she is an [REDACTED] with the Los Gatos School District, and had been eating her lunch in her vehicle at Blossom Hill Elementary School (located across the street from the vehicle collision). (W3) told me she had been parked in the school parking lot and her vehicle faced north toward Blossom Hill Road so she could see the street. (W3) told me she had been looking around while eating her lunch, at which point she noticed (V1) collide into something. (W3) told me at first she did not know what it was because (V1) and (V2) were both white. (W3) told me she exited her vehicle and began to walk across the street at which point she realized (V1) had collided with a parked vehicle. (W3) told me she called 911 to report the collision, and noticed (W1) make a U-turn and stop to help as well.

(W3) told me as she crossed the street she noticed a body on the ground at the rear end of (V3). (W3) told me she noticed (P1) had exited (V1) and said something along the lines of, "Get him a blanket. He's gonna die." (W3) told me a neighbor came outside with a sheet, but never put it on (P2). (W3) told me she noticed (P1) place something over (P2), which could have been a black shirt. (W3) told me she never approached (P2) and stayed back while talking to 911.

#### RECOMMENDATIONS :

### Summary Narrative

This is a supplemental report in regards to the fatal traffic accident investigation.

### Narrative

Additional Attachments:

Crime scene log  
Copy of CHP 180 for both vehicles  
Coroner property receipt

Narrative: On 12-16-19 at approximately 1140 hours Officers were sent to the area of Blossom Hill Rd at Cherry Blossom Ln on the report of a 2 car accident with an injury. It was also reported that the injured party may be deceased. Officers arrived on scene determined that the victim was deceased and began the investigation. I arrived on scene to manage the investigation at 1155 hours. Cpl Campbell managed the crime scene security and traffic control.

I contacted the Coroners office and spoke with Coroner Investigator Marcel Watson. He was advised of the incident and he responded to the scene. He arrived on scene at 1341 hours with his two assistants. he examined the scene, took photos, examined the victim and assisted with the collection of the body. Watson then stayed at the scene to make sure that all body parts had been collected. He inventoried the victims property and gave me a receipt of what he collected. I attached the receipt to this report.

I had 2 CHP180 forms filled out for both the suspects Range Rover and victims Honda. I sealed both vehicles as evidence. Bob's Tow responded to the scene, collected both vehicles at 1455 hours. The vehicles were to be securely stored at 70 Cristich Ln in Campbell. The original forms were taken to the dispatch center for processing by PCO Church at my request. I attached a copy of both forms to this report.

I also completed a crime scene log for the crime scene for the day between 1140 hours and 1830 hours when the scene was released and all officers cleared. The log is attached.

Follow Up: None

Recommendations:

I recommend that this supplemental report be added to the original case file.

### Narrative

**Additional Attachments:** None

**Narrative:** On 12/16/19 at approximately 1150 hours, I responded to the area of Blossom Hill Road and Cherry Blossom Lane to assist with a reported collision. Upon my arrival, I contacted Corporal Campbell and began processing the scene by taking photographs of the scene with my department issued digital camera.

I took 82 photographs of the area depicting the scene including the involved vehicles, persons, roadway, and items on the roadway that appeared to be involved in the collision. The photographs were loaded onto a DVD and booked into evidence.

I then proceeded to mark items on the roadway not limited too but including vehicle points of rest, point of rest of Party #2, blood droppings/biological tissue, items of clothing related to Party #2, tire scuffing and or skid marks, and personal items. Locations of the marked items were documented utilizing a total station, rolatape, and flat tape measure. The location of items were described and documented in the diagram I produced, which is included in Officer Baughn's original collision report. The diagram was produced utilizing FX3 collision diagramming software.

I calculated V-1 Land Rover speed estimates using a time distance calculation over the last approximately 408 ft. traveled by V-1 Land Rover. The traveled distance was determined by measuring the distance from the camera located at 963 Blossom Hill Road to the area of impact in this collision. The time distance calculation was performed by utilizing the time stamps on the video of V-1 Land Rover passing the camera and time stamp of the collision base upon the audio portion of the recording. The time stamps on the video indicate 1 second increments. Due to the 1 second increments the minimum time to cross the 408 ft. was 8 seconds and the maximum time was 9 seconds to cross the distance. The calculations indicate an average speed across the distance to be between 30.9 Miles-Per-Hour and 34.77 Miles-Per-Hour. I also performed separate timings with a

Supplement No  
**0005**

**Narrative**

stop watch of the vehicle crossing the driveway edge until the sound of impact. A result of 5 timings was an average time over the distance 8.36 seconds indicating a speed average of 33.26 Miles-Per-Hour. The low average speed was 32.87 Miles-Per-Hour and the high average speed was 33.59 Miles-Per-Hour. The video was booked into evidence by Detective H. Hoyt.

It should be noted that Officer Alldredge also made speed calculations using Slide to Stop equations, calculated off of the skid marks located at the scene. His calculations determined V-1's speed to have been between 30.42-37.98 MPH. Please refer to Officer Alldredge's supplemental report for details.

**Follow Up:** None

**Recommendations:** I recommend this report be attached to the original report for case #19-2865.

### Summary Narrative

This supplement report documents the transport of a driver to the Police Operations Building and collection of a blood sample via signed consent.

### Narrative

#### Attachments:

None.

#### Narrative:

On 12-16-19 at about 1141 hours a fatal injury occurred in the 900 block of Blossom Hill Road in Los Gatos. I was at police headquarters at the time of the incident and Captain D'Antonio advised me of the accident. We traveled to the location of the accident and arrived on scene at about 1154 hours. Upon arrival to the area of the accident we immediately observed a white female adult rolling in the grass near the location of the collision and on the same side of the roadway with an officer standing nearby her. We later learned this was the driver of the solo vehicle involved in the incident and later identified as S-1 Jennifer Bradanini.

I contacted Victim Services Unit member, Kathy Williams, at 1216 hours and asked that she respond as soon as possible to assist.

S-1 Bradanini was noticeably extremely distraught at the scene of the collision and rolling back and forth in the front lawn of a nearby residence. Two people that knew her arrived on scene and were attempting to console her. Captain D'Antonio communicated to Captain Tada and Sgt Lunsford, also on scene, that we would provide S-1 Bradanini transportation to the Police Operations Building where she could await further follow up with the collision investigation.

He then communicated this to S-1 Bradanini in my presence and with one of S-1 Bradanini's friends close by. S-1 Bradanini agreed to being transported and her friend, L [REDACTED] rode in the unmarked Black Dodge Charger as well. Captain D'Antonio drove and notified dispatch at 1226 hours of vehicle mileage of 19083 and arrival time at the Police Operations Building parking lot at 1228 hours with the same mileage. It should be noted that I was in the front passenger seat during the transport and had a Vie Vue recording throughout the entirety of the transport. Upon arrival, I escorted S-1 Bradanini along with L [REDACTED] to the non-custodial interview room.

Kathy Williams arrived at the Police Operations Building at 1240 hours and Captain D'Antonio introduced her to L [REDACTED] and S-1 Bradanini and asked that she be present with them as S-1 Bradanini was still quite distraught in the non-custodial interview room. Kathy Williams was able to locate a pillow and blanket for S-1 Bradanini as she

### Narrative

seemed to find most comfort on the floor and was periodically cold.

Shortly after arrival at the Police Operations Building, I explained to S-1 Bradanini the consent form for purposes of obtaining a blood sample from her. A blood technician was requested via dispatch at 1259 hours and arrived at 1348 hours. Blood Tech Thu Truc Nguyen arrived at the Police Operations Building and I assisted with all necessary paperwork related to retrieval of the blood sample per S-1 Bradanini's consent. The signing of the consent form and obtaining the blood sample was captured via Vie Vue. I provided the consent form and the blood sample with associated documents to Det. Hoyt.

It should be noted that I borrowed Cpl. Campbell's Vie Vue for the above mentioned recordings. He later downloaded the recordings and I tagged them with this case number for future reference.

### Follow-up:

None.

### Recommendations:

I recommend this report be attached to the original.

Narrative:

On 12-16-19 at approximately 1140 hours Officers were sent to the area of Blossom Hill Rd at Cherry Blossom Ln on the report of a 2 car accident with an injury. It was also reported that the injured party may be deceased. Officers arrived on scene determined that the victim was deceased and began the investigation. I arrived on scene to manage the investigation at 1155 hours. Cpl Campbell managed the crime scene security and traffic control.

While at the scene of the accident, Officer Alldredge entered the Range Rover to gather registration and insurance for the accident investigation. He did not locate either but did locate ownership paperwork for the vehicle, the pinkslip for the car, that was in the name of B ■ Bradanini. The bottom and back was filled out and signed over to (S) Jennifer Bradanini. The pinkslip was collected as evidence of registration. Officer Baughn contacted B ■ Bradanini and determined the car was signed over to his ex wife, (S) Jennifer Bradanini.

The pinkslip was used to fill out the CHP180 when the car was towed as evidence.

The pinkslip was given to me and I am booking it into evidence.

### Summary Narrative

The purpose of this supplemental report is to document the investigation and the measurements of the collision scene.

### Narrative

#### I. ADDITIONAL ATTACHMENTS:

1. CHP 556 form.

#### II. NARRATIVE:

On 12/16/2019 at approximately 1140 hours, units were dispatched to the area of Blossom Hill Road (near the intersection of Cherry Blossom Lane) for a fatal injury accident. The accident was described as a vehicle versus a pedestrian, where the pedestrian appeared to be deceased. My duties assigned on the scene were to assist Officer Kimbal Stanley in measuring the scene and conduct a speed analysis.

#### PHYSICAL EVIDENCE:

I saw that the accident appeared to be a rear end collision involving a moving vehicle colliding with a pedestrian and a parked vehicle. The pedestrian appeared to have been at the rear bumper area of the vehicle at the time of the collision. The pedestrian had fatal injuries and was pronounced dead at the scene. I was assigned the duty to assist Officer Stanley in obtaining roadway measurements and identifying evidence for a factual diagram. I assisted him in marking identified evidence at the scene and helping take measurements. For more information about the accident, measurements, and factual diagram, refer to the original and attached supplemental reports.

#### FACTUAL DIAGRAM:

#### V-1 (Land Rover) Speed Calculations

Vehicle speed estimates prior to collision were based upon the evidence located on scene. The coefficient of friction used to calculate the drag factor was from a standard table. The friction constant for locked wheels on asphalt for the parked vehicle, V-2 (Honda), was determined to be .60. There was no evidence located on scene that indicated if D-1 had applied her brakes after the collision. D-1 additionally stated that she did not think she stepped on the brakes. The friction constant for rolling wheels on asphalt was determined to be .01 and was used for the calculation.

The weights of both the vehicles were located on a standard table. The weight range for V-1 was determined to be between 6,001 - 7000 lbs. The weight of D-1 from her driver's license was listed as 150 lbs, for a combined

## Los Gatos/Monte Sereno Police Department

### Narrative

weight range of 6,151 - 7,151 lbs. The weight range for V-2 was determined to be 5,001 - 6,000 lbs.

Based on the approximate 41.80 feet tire friction mark caused by the front driver side tire of V-2, I determined that V-2 traveled approximately 41.80 feet after the collision. Based on the Area of Impact and the point of rest of the front bumper of V-1, I determined that V-1 traveled approximately 42.01 feet after impact.

Using known momentum equations, I determined that V-1 was traveling a minimum speed of 30.42 mph - 37.98 mph just prior to impact. The range of speed is due to the weight range of the vehicles. Refer to the attached CHP 556 Report for equation details.

### III. FOLLOW-UP:

# Incident Report

## Los Gatos/Monte Sereno Police Department

19-2865

Supplement No  
0009

### Narrative

2. Property Receipt for the items seized from Bradanini's Range Rover on 1/21/2020 (copy e-mailed to Bradanini's Attorney Josh Bentley).
3. Copy of CHP Vehicle Inspection Report (6 pages).

### Narrative:

On 1/21/2020 at approximately 0900 hours, LGMSPD Detective Sgt Lunsford, Det Boom, and myself responded to Bobs Tow yard at 70 Cristich Ln, Campbell to execute a search warrant on Jennifer Bradanini's 2013 Range Rover. The search warrant was drafted by Detective Viviano and signed by Judge Iravani-Sani, Santa Clara County Superior Court, on 1/15/2020 for the search of items in/on Bradanini's Range Rover. Det Sgt Lunsford had also coordinated to meet with a member of the CHP at the vehicles location, so that a mechanical inspection of the Range Rover could be completed. Both the white Range Rover (driven by Bradanini) and the white Honda Pilot (owned by Victim Starkey) were housed inside a garage on the tow yards property at 70 Cristich Ln. The vehicles were moved outside so that the CHP could conduct there inspection. I inspected the Range Rover and noted that every door was sealed with a piece of red evidence tape and dated. Every piece of tape appeared to be in good condition and did not appeared to be tampered with. I reviewed the scope of the search warrant prior to entering the sealed Range Rover. I noted that the warrant allowed the search for modules and devices that collected vehicle data, prescription medication, alcohol, drug paraphernalia, an unknown colored jacket, and a cell phone (refer to the search warrant for the full scope of search warrant coverage). The following items were seized from Bradanini's vehicle by Det Sgt Lunsford and provided to me:

1. One silver/black colored control module from behind the battery in the engine compartment.
2. One gray and black colored leopard print women's jacket located in the rear passenger seat.
3. Eight shirts from the back cargo area.

I did not locate any other cell phones, drug paraphernalia, alcohol, or prescription medication inside of Bradanini's Range Rover.

I took photos of Bradanini's Range Rover. The photos include, but not limited to, exterior images, interior images, and images of the Range Rovers control module seated against the firewall in the engine bay. I located two unopened cans of Red Bull, and one unopened can of Diet Coke on the rear passenger floor. I located one empty can of Diet Coke on the rear passenger floor. I photographed the beverages and left them in the car. I took several images of the victim's Honda Pilot.

The Range Rover was left at the tow yard. Upon returning to the Police Operations Building, I e-mailed a copy of the search warrant and the property receipt to Joshua M. Bentley (josh@bentleylawgroup.com). I had received an e-mail on 1/16/2020, and later a phone call, from Josh Bentley advising that he was representing Jennifer Bradanini. I then e-mailed Nancy Shotke, Bradanini's insurance (Mercury Insurance) that we were done with the inspection and that we have released Bradanini's Range Rover.

I e-mailed Timothy Lundell, representing the Starkey family, and advised him that we have released the Starkey's Honda, and that we recovered tools and items that belonged to the victim (per Mrs. Starkey's request). The items were taken to the Police Operations Building and stored on behalf of the victim's family. I advised him that the Starkey family could pick up the items taken from the Honda. I e-mailed Candice Shelton (Geico insurance) that insured the Starkey's vehicle. I advised that the Honda Pilot was released and available.

On 1/22/2020 I drafted the Search Warrant Return and sent an electronic copy to the Santa Clara County Superior Court. The Honorable Eric Geffon, Judge of the Santa Clara County Suprior Court, signed the Search Warrant Return. I attached a copy of the Return to this report.

On 1/27/2020 I received a copy of the CHP vehicle inspection report written by CHP Officer J Dancy #021737. I read the report noted the following section title **Overall Opinion**:

*After conducting the inspection on this vehicle, I did not locate any deficiencies which would have been a primary or even a contributing factor to a collision. The entirety of the damage to the Land Rover appeared to have been as a result of the collision.*

Report Officer <b>S075/HOYT, HAROLD</b>	Printed At <b>04/29/2020 14:42</b>
<b>Page 2 of 3</b>	

**Incident Report**  
**Los Gatos/Monte Sereno Police Department**

**19-2865**

Supplement No  
**0009**

**Narrative**

I included a copy of the CHP report as an attachment to this report.

**Physical Evidence:**

I down loaded the images I took of the Bradanini's Range Rover and of the Starkey's Honda Pilot. I downloaded the images onto a disc for evidence.

I booked the following items seized from the search warrant into evidence:

1. One silver/black colored control module from behind the battery in the engine compartment.
2. One gray and black colored leopard print women's jacket located in the rear passenger seat.
3. Eight shirts from the back cargo area.

**Follow Up:**

None.

**Recommendations :**

I recommend this case be attached to the original. This case is on going.

SUPERIOR COURT OF THE STATE OF CALIFORNIA,  
IN AND FOR THE COUNTY OF SANTA CLARA

STATE OF CALIFORNIA

COUNTY OF SANTA CLARA

SW No. \_\_\_\_\_

RETURN AND INVENTORY ON  
SEARCH WARRANT

I, Detective Harold Hoyt, hereby make this return to the above referenced Search Warrant pursuant to Penal Code section 1534. The warrant was issued by Judge Nahal Iravani-Sani on January 15, 2020. I executed the warrant on January 21, 2020 and seized the property listed below.

## INVENTORY:

1. Range Rover Computer Control Module from vehicle.
2. One grey and black women's jacket from vehicle.
3. Eight sweatshirts from vehicle.

The property seized will be held pursuant to Penal Code Section 1536 until further order of court or disposed of according to authorization contained in the original warrant.

I swear under penalty of California perjury law that the forgoing facts are true and that this Return was executed on January 22, 2020.

Electronically signed by Detective Harold Hoyt  
[hhoyt@losgatosca.gov](mailto:hhoyt@losgatosca.gov)  
January 22, 2020, 8:45 A.M

Received this 22nd day of Jan., 2020*Eric S. Goffon*

**2013 Land Rover Mechanical Inspection Report****Date of Inspection:** January 21<sup>st</sup>, 2020**Inspection Location:** Bob's Towing  
70 Cristich Lane  
Campbell, CA 95008**Persons Present:** CHP Officer J. Dancy #21737  
CHP Officer W. Neusel #21964  
LCPD Detective Hoyt #75  
LCPD Sergeant Lunsford #35**Make:** Land Rover**Model:** Range Rover**Trim:** Sport LSE Luxury**Color:** Fuji White**Interior Color & Material:** Alpaca Beige, Leather & Natural Wood**Engine:** Jaguar 5.0L AJ133 V8 32-Valve**Transmission:** Automatic, 6-Speed**Manufacture Year:** 2013**Model Year:** 2013**VIN:** SALSK2D46DA800368**License:** California, 6ZFN730**Odometer:** Unknown, Digital**Extent of Examination**

The mechanical components of this vehicle were sorted into critical item segments for a detailed analysis of their functional abilities or abnormalities. Measurements in this report are approximate. The damage noted is not inclusive of all damage sustained as a result of the collision. The critical item segments in this report include the following:

- Interior
- Throttle
- Steering
- Suspension
- Brakes
- Tires & Wheels
- NHTSA Recalls

There was no attempt to cycle the ignition of the Land Rover. The ignition was not activated, or attempted to be activated, during this inspection. This was done to preserve any possible evidence which may have been digitally recorded by the Land Rover at the time of the collision.

**Interior**

An inspection of the interior of the vehicle showed the headlights to be in the "A" position; which is the automatic headlight setting. The ignition key was present, but there was no attempt to start the vehicle or to put the vehicle in accessory mode. The parking brake was activated by an electronic switch and was believed to be engaged upon inspection due to the front wheels' inability to revolve. The hazard light button, climate controls, traction control, suspension controls, and radio controls were all electronic and unable to be determined. The gear stick was located in its forward-most position; indicating that the vehicle was in park. All seatbelts in the vehicle were Level 2, three-point, shoulder and waist seatbelts. The driver's seatbelt showed objective signs of usage and was extended in a locked position with the lower electronic retractor not activated. The driver's seatbelt displayed deformation indicating that whomever was driving the Land Rover properly utilized the seatbelt during the collision. The latch and ejector of the driver's seatbelt were in functioning order and were unremarkable. All other seatbelts in the Land Rover were in the retracted position and were able to be extended and retracted without resistance. The steering wheel airbag was deployed and was unremarkable. No other airbags were deployed. The electronic steering wheel adjuster was set to automatic. The brake and accelerator pedals appeared unremarkable in height in relation to the floorboard. There were no floor mats or other obstructions which are believed to have in any way interfered with the operation of the pedals. The pedals were able to be freely manipulated, were smooth in application, and were unremarkable. The interior of the Land Rover was unremarkable.

**Throttle**

The throttle on this vehicle was an electronic throttle system and was activated by means of a foot pedal located on the floor in front of the driver's seat. The foot pedal moved freely throughout its range of travel with no binding. The foot pedal returned to its uppermost, and closed, position upon releasing the pedal. The air intakes were removed; the mass air filters were unremarkable, and the remainder of the air intakes displayed no signs of malfunction or prolonged neglect. The butterfly valve was located in the closed position and there was no visible debris in the throttle manifold. The butterfly valve of the throttle assembly was actuated by hand, was freely manipulated to full/open throttle, and when released returned on its own to the closed position. The throttle assembly was unremarkable.

**Steering**

This vehicle was equipped with a hydraulic rack and pinion steering gear; utilizing outer tie rods that attach to the front spindles to enable steering of the front wheels. The steering gear was assisted by means of a hydraulic power steering pump which contained an adequate amount of steering fluid. The steering rack was properly attached to the frame. The steering wheel had an electronically manipulated tilt and telescope adjustment. The steering wheel was able to be manipulated from lock to lock; in a full range of motion. The steering wheel was easily manipulated and smooth throughout its entire range of motion in both directions. As the steering wheel was manipulated; the front wheels responded appropriately. There were no signs of leakage in the steering system. The steering system was unremarkable.

**Suspension**

**Front Suspension** – This vehicle's steering axle was equipped with an independent suspension utilizing air-spring bag struts. The front suspension was able to be manipulated by an electronic switch in the interior of the Land Rover. The front suspension of this vehicle was equipped with upper and lower control arms that were mounted to the vehicle frame/subframe, along with wheel spindles to allow vertical suspension travel. A stabilizer bar was used for increased turning stability. All bushings and ball joints appeared to be in acceptable condition and displayed no signs of malfunction, leakage, or neglect. When the Land Rover was suspended above the ground, the front suspension decompressed appropriately. When the Land Rover was lowered back down, the front suspension recompressed appropriately. The front suspension was unremarkable.

**Rear Suspension** – This vehicle's trailing axle was equipped with an independent suspension utilizing air-spring bag struts. The rear suspension was able to be manipulated by an electronic switch in the interior of the Land Rover. The rear suspension of this vehicle was equipped with upper and lower control arms that were mounted to the vehicle frame/subframe, along with wheel spindles to allow vertical suspension travel. All bushings and ball joints appeared to be in acceptable condition and displayed no signs of malfunction, leakage, or neglect. When the Land Rover was suspended above the ground, the rear suspension decompressed appropriately. When the Land Rover was lowered back down, the rear suspension recompressed appropriately. The rear suspension was unremarkable.

**Drive Train**

This vehicle was equipped with an all-wheel drive system that incorporated an automatic six-speed transmission attached to the wheels by means of inner and outer constant-velocity joints. All drive train components were properly attached and both wheel assemblies revolved normally when the vehicle was suspended above the ground. The vehicle was located in park and the gear stick was easily manipulated into all possible gear selections with ease. When the vehicle was in gear, the rear wheels were able to be spun clockwise and counterclockwise by hand. The front wheels were believed to be locked in place by the electronic parking brake. The drive train was unremarkable.

**Parking Brake**

This vehicle was equipped with electronically actuated parking brake. The parking brake switch was located in the center console area to the right of the driver's seat. Since the parking brake was electronically actuated, the parking brake was not able to be actuated at the time of inspection. It is believed that the parking brake is automatically set when the vehicle is placed in park. It is assumed that the Land Rover was placed in park by the driver at the scene of the collision. The front wheels of the Land Rover were unable to be manipulated by hand, which is believed to indicate that the parking brake was engaged. The parking brake was unremarkable.

**Brakes**

This vehicle was fitted with hydraulically actuated front and rear disc brakes, utilizing a master cylinder as well as an ABS system. The system was activated by the master cylinder, which was mounted on the upper-left side of the engine compartment bulkhead. The master cylinder's fluid level was approximately 3/8 inches below the "MAX" line and approximately 3/4 inches above the "MIN" line. There seemed to be an adequate amount of brake fluid in the master cylinder reservoir. The brake pedal was able to be depressed 1 1/2 to 2 inches and returned to its uppermost position upon releasing pressure. All brakes lines that could be accessed appeared to be intact and attached to their respective components appropriately. The brakes were assisted by a vacuum booster which the lines were intact, and the vacuum pump did not show any signs of malfunction or neglect. The ABS system appeared intact and displayed no signs of leakage.

The vehicle was suspended above the ground and the front and rear wheels were unable to be removed from the vehicle. The lug bolts of the Land Rover's wheels were unable to be loosened or removed by use of hand tools, and a tire iron was bent in the process of attempting to remove them. Any pneumatic or electric-assisted tools were unavailable at the time. The wheels of the Land Rover were securely attached. The front and rear brake systems were then inspected as much as they could be while the wheels were still attached.

**Front Brakes** – This system utilized a double piston, sliding caliper design. No visible signs of pre-collision fluid loss were observed. The ventilated rotors exhibited a generally smooth and polished appearance about the friction surface, aside from the rust that had accumulated from the vehicle being stored for an extended period of time without use. The brake pads appeared to be of the bonded type and were composed of a semi-metallic material. There were no signs of overheating or abnormalities. The front right brake pad appeared to have been recently installed, as it had more than adequate brake pad material. The front left brake pad showed signs of prolonged use, but still had adequate brake pad material. The front wheels were unable to be spun, indicating that the brake system on the front brakes was functioning, and that an electronic, or an electronically-assisted, brake system was preventing the front wheels from moving. The brake lines, as well as the ABS system, for the front brakes appeared intact and faultless.

**Rear Brakes** – This system utilized a single piston, sliding caliper design. No visible signs of pre-collision fluid loss were observed. The ventilated rotors exhibited a generally smooth and polished appearance about the friction surface, aside from the rust that had accumulated from the vehicle being stored for an extended period of time without use. The brake pads appeared to be of the bonded type and were composed of a semi-metallic material. There were no signs of overheating or abnormalities. The brake pads showed minimal signs of wear and had adequate friction material. The rear wheels were spun and the brakes were applied which prevented the rear wheels from moving. The rear brakes functioned appropriately. The brake lines, as well as the ABS system, for the front brakes appeared intact and faultless.

**Tires & Wheels (Continued)**

The tires and wheels on this vehicle were of, or better than, those recommended by the manufacturer. The right-rear tire had a chop in the sidewall, approximately 1-2 inches in diameter, at 190-200 degrees; the valve stem being 0 degrees. The chop is believed to have been caused by the right-rear wheel of the Land Rover colliding with the raised concrete curb at the scene of the collision, as there was notably recent damage to the right-rear rim. The right-front tire had two small abrasions, approximately 1-2 inches long, at 340-350 degrees; which also seemed to be caused from the initial collision. The tires were otherwise unremarkable.

**Recalls**

A check of the National Traffic Safety Administration (NHTSA) website indicated there were no recalls for this year, make, and model of vehicle.

**Overall Opinion**

After conducting the inspection on this vehicle, I did not locate any deficiencies which would have been a primary or even a contributing factor to a collision. The entirety of the damage to the Land Rover appeared to have been as a result of the collision.

**Mechanical Inspection Photo Log**

During the inspection, 228 photos were taken of this vehicle detailing the extent of the damage the Land Rover sustained as well as many various mechanical/electronic components which were inspected. The photos were digitally transferred to a compact disc. The photos are available at the San Jose CHP Office. Refer to San Jose CHP Evidence No. 20200033.

### Summary Narrative

Blood Test Results

### Narrative

#### Attachments:

1. Blood test results (5 pages).

#### Narrative:

On 4/6/2020 I received the Outside Testing Result Summary for the expanded drug screen panel for Jennifer Bradanini. The report was from the County of Santa Clara County Crime Lab and consisted of 5 pages. The report documented that Bradanini's sample was sent to National Medical Services (NMS), located in Willow Grove Pennsylvania for an expanded drug screen panel. Page 3 of 5 documented that there were positive findings for two compounds in the provided blood sample (refer to attached NMS Labs page 3 of 5).

#### Follow Up:

Phone analysis was being conducted by the SCC Crime Lab. Results for the cell phone analysis are pending and are delayed due to the Covid-19 Pandemic.

#### Recommendations :

I recommend that this report be attached to the original and forwarded to the DA's Office ATTN: DDA Okonkwo. This case is on going.

## Detailed Findings:

Analysis and Comments	Result	Units	Rpt. Limit	Specimen Source	Analysis By
Caffeine	Positive	mcg/mL	0.20	001 - Blood	LC/TOF-MS
	9.8	ng/mL	5.0	001 - Blood	LC-MS/MS

Other than the above findings, examination of the specimen(s) submitted did not reveal any positive findings of toxicological significance by procedures outlined in the accompanying Analysis Summary.

## Reference Comments:

## 1. Caffeine (No-Doz®) - Blood:

Caffeine is a xanthine-derived central nervous system stimulant. It also produces diuresis and cardiac and respiratory stimulation. It can be readily found in such items as coffee, tea, soft drinks and chocolate. As a reference, a typical cup of coffee or tea contains between 40 to 100 mg caffeine.

The reported qualitative result for this substance was based upon a single analysis only. If confirmation testing is required please contact the laboratory.

## 2. [REDACTED] - [REDACTED]:

[REDACTED] is a DEA Schedule IV benzodiazepine used in [REDACTED] and for short-term relief [REDACTED] associated with [REDACTED] symptoms. It shares the actions and adverse reactions of other [REDACTED] representants. This compound does have abuse potential and should be used cautiously with other [REDACTED].

[REDACTED] can be administered by oral, IV and IM routes; daily divided oral doses of up to 10 mg are generally prescribed [REDACTED]. Following a single oral dose of 2 [REDACTED] concentrations in plasma averaged 20 ng/mL, decreasing to 10 ng/mL by 12 hours. Chronic oral administration of 10 mg dose resulted in an average steady-state [REDACTED] level of 200 ng/mL (range 140 - 240 ng/mL). In blood, the maximum therapeutic effect [REDACTED] is reported to be within the range of 30 - 50 ng/mL.

Fatalities [REDACTED] are relatively rare and generally have postmortem blood concentrations exceeding 300 ng/mL; however, such concentrations are not necessarily fatal.

Chain of custody documentation has been maintained for the analyses performed by NMS Labs.

Unless alternate arrangements are made by you, the remainder of the submitted specimens will be discarded six (6) weeks from the date of this report, and generated data will be discarded five (5) years from the date the analyses were performed.

Workorder 20065404 was electronically signed on 03/06/2020 11:28 by:

Jennifer L. Turri Swatek, M.S.F.S., D-ABFT-FT  
Certifying Scientist

## Analysis Summary and Reporting Limits:

All of the following tests were performed for this case. For each test, the compounds listed were included in the scope. The Reporting Limit listed for each compound represents the lowest concentration of the compound that will be reported as being positive. If the compound is listed as None Detected, it is not present above the Reporting Limit. Please refer to the Positive Findings section of the report for those compounds that were identified as being present.

### Narrative

Additional Attachments: none

Narrative:

On 12-18-19 a fatal traffic collision occurred.

While reviewing the completed reports, I noticed 6 photos attached to the original case report/collision report. Officer Baughn had taken 6 photos of the scene and attached them to the collision report. This was documented in his report narrative.

I removed the photos from that report and booked them into evidence under this supplemental report.

Follow Up: None

Recommendations:

I recommend that this supplemental report be added to the original case file.

REPORT OF EXTERNAL EXAMINATION

NAME: STARKEY, T CASE #19-03537

DATE AND TIME OF EXTERNAL EXAMINATION: December 18, 2019 @ 1014 hours  
AGE:        RACE:        SEX:        LEN:        WT:       

IDENTIFICATION:

An external examination is performed on a body labeled with two Medical Examiner tags attached to the left ankle, each labeled "#19-03537". The body has been positively identified by fingerprints on December 16, 2019.

The examination is performed under the legal authority of the Office of the Medical Examiner-Coroner of the County of Santa Clara, California.

CLOTHING AND ACCOMPANYING EFFECTS:

The body is received clad in torn and blood-stained clothing included: blue T-shirt, blue jeans with brown belt, black underwear, white socks and gray shoe on the left foot. A black sweater is under the body. Accompanying the body are matching shoe and gray cap.

A white metal ring is on the right ring finger. A yellow metal ring is on the left ring finger.

Received with the body are red plastic biohazard bag and brown paper bag that contain fragments of bone and soft tissue with debris and leaves (7 by 6 by 5 inch and 4 by 3 by 3 inch in aggregate, respectively).

Fragments of plastic are embedded in the exposed soft tissue of the lower extremity and in the body bag. They are collected in a labeled brown paper bag, sealed and retained as trace evidence.

There are no other accompanying effects or valuables.

EXTERNAL EXAMINATION:

The body is that of a well-developed, well-nourished, adult white male who appears compatible with the stated age of        years.

REPORT OF AUTOPSY  
OFFICE OF THE MEDICAL EXAMINER-CORONER  
SANTA CLARA COUNTY, CALIFORNIA

CASE #19-03537  
STARKEY, T [REDACTED]

Injuries to the body will be described below, see "Evidence of Injury". The body is cold to touch (refrigerated). Rigor is present to an equal degree in upper extremities. Faint red lividity is fixed on the posterior surfaces of the body, except in areas exposed to pressure. The scalp hair is gray and very short in length. Dried blood and vomitus are on the face. The facial hair is shaved.

The irides are blue/gray. The corneas are clear to filmy. The sclerae are white. The conjunctivae are unremarkable. No petechial hemorrhages are identified on the palpebral conjunctivae, bulbar conjunctivae, facial skin or oral mucosa. The nasal skeleton is palpably intact. The earlobes are not pierced. The external auditory canals are unremarkable; the external nares and oral cavity are free of foreign material and abnormal secretions. The teeth are natural and in adequate condition. The neck organs are midline and appear unremarkable. The chest is symmetric. The abdomen is mildly protuberant and soft to palpation. The posterior torso is without note; the anus is unremarkable. The external genitalia are those of a normal adult male. The penis appears circumcised. The testes are palpable within the scrotal sac.

The upper extremities are well-developed and symmetrical, without deformity or absence of digits. The fingernails are intact, short, and clean.

IDENTIFYING MARKS AND SCARS:

No tattoos or scars are identified.

EVIDENCE OF MEDICAL INTERVENTION:

Evidence of medical intervention includes an EKG pad on the upper chest.

EVIDENCE OF INJURY:

I. Multiple Injuries:

A. Head Injury:

There is a 1-1/2 by 1-inch abrasion on the right temporal scalp. There is a 1-1/4 by 3/4-inch abrasion on the upper right side of the forehead. There is a 1-inch laceration on the lateral right side of the forehead. The right side of the forehead shows a 3 by 1/2-inch abrasion. There is a mostly curvilinear abrasion across the left side of the forehead and nose (6 by 3/4 inch). A 1/2 inch laceration is on the left parietal scalp. There is a 3 by 1-inch abrasion on the left zygomatic region. There is a 3 by 2-inch area of abrasions on the upper left side of the lip and nose. The skin lateral to right eye shows a 3 by 3-inch area of abrasions. A 1/2-inch laceration is on the left parietal scalp. The left side of the upper lip shows a 1/2-inch laceration. There is a 1-1/2 by 1/2-inch abrasion on the chin; within the area of abrasion is a 1/2-inch laceration. The left upper central incisor tooth is fractured.

REPORT OF AUTOPSY  
OFFICE OF THE MEDICAL EXAMINER-CORONER  
SANTA CLARA COUNTY, CALIFORNIA

CASE #19-03537  
STARKEY, T [REDACTED]

B. Torso Injury:

Dried yellow-orange abrasions are on the upper right side of the chest, mid anterior torso and right side of the abdomen, right arm and forearm, and right thigh. There are linear abrasions on the left lower quadrant of the abdomen (1/4 inch to 2 inch). The penis and scrotum show scattered abrasions.

On radiologic examination, the symphysis of pubis is fractured and separated.

C. Extremity Injury:

Dried yellow-orange abrasions are on the right arm and forearm, and right thigh. There is a 2-1/2 by 1-inch abrasion on the distal anterior right forearm. A 2 by 1-inch abrasion is on the back of the right wrist. The proximal medial left forearm shows 1/4 to 1-inch abrasions. There are abrasions on the back of the left hand (1/4 to 1 inch). The lower extremities show near amputation of the legs at the knee with multiple displaced fractures of the distal femur, patella, proximal tibial and fibula, and extensive crushing injury of the soft tissue. The vessels of the legs are transected. As previously described, accompanying the body are fragments of the bone and soft tissue that have been collected at the scene. A gaping laceration is across the posteromedial aspect of the right lower extremity. There is near amputation of the right foot at the ankle. The lateral aspect of the right foot shows confluent contusions.

ASSISTANT: Alyssa Collazo, Forensic Autopsy Technician.

WITNESSES: None.

PHOTOGRAPHS: Multiple digital photographs are obtained.

SPECIMENS RETAINED: Peripheral blood and vitreous fluid. DNA card and scalp hair.

SPECIMENS SENT FOR TOXICOLOGY: Peripheral blood.

TOXICOLOGIC EXAMINATION: Negative for alcohol and common drug of abuse.

**PATHOLOGIC DIAGNOSIS:**

I. Multiple injuries

A. Head injury

1. Abrasions and lacerations of the skin

B. Torso injury

1. Abrasions of the skin
2. Fracture of the symphysis of pubis

C. Extremity injury

1. Abrasions, contusions and lacerations of the skin
2. Near amputation of the legs and right foot with extensive crushing bone and soft tissue injury
